Street, Text, and Representation in African American Literature Mattius Rischard, 2024-05-31 Comprehensive and comparative this volume investigates African American street novelists since the Chicago Black Renaissance and the semiotic strategies they employ in publication consumption and depiction of street life Divided into three chapters this text analyzes the content style and ethics of street narrative through a discursive rhetorical lens exploring the development of street literature s formal and contextual concerns to resolve the sociocultural and political questions surrounding cultural work The book also gives emphasis to text or post structural literary analysis by answering questions about the genre s aesthetic and linguistic techniques that respond to the injustices of urban planning The last chapter Representation investigates the phenomenological hermeneutics of more recent street literature and its satire highlighting the political stakes for authorship credibility and subjectivity Through historical and contemporary studies of urban space Blackness and adaptations of street literature this work attempts to network activists artists and scholars with the greater reading public by providing a functional ontology of reading the inner city

Teaching Tainted Lit Janet G. Casey, 2015-11-15 Popular American fiction has now secured a routine position in the higher education classroom despite its historic status as culturally suspect This newfound respect and inclusion have almost certainly changed the pedagogical landscape and Teaching Tainted Lit explores that altered terrain If the academy has historically ignored or even sneered at the popular then its new accommodation within the framework of college English is noteworthy surely the popular introduces both pleasures and problems that did not exist when faculty exclusively taught literature from an established high canon How then does the assumption that the popular matters affect teaching strategies classroom climates and both personal and institutional notions about what it means to study literature The essays in this collection presume that the popular is here to stay and that its instructive implications are not merely noteworthy but richly nuanced and deeply compelling They address a broad variety of issues concerning canonicity literature genre and the classroom as its contributors teach everything from Stephen King and Lady Gaga to nineteenth century dime novels and the 1852 best seller Uncle Tom s Cabin It is no secret that teaching popular texts fuels controversies about the value of cultural studies the alleged relaxation of aesthetic standards and the possible dumbing down of Americans By implicitly and explicitly addressing such contentious issues these essays invite a broader conversation about the place of the popular not only in higher education but in the reading lives of all Americans
