The Bible's Many Voices Michael Carasik, 2014-01-01 The most common English translations of the Bible often sound like a single somewhat archaic voice In fact the Bible is made up of many separate books composed by multiple writers in a wide range of styles and perspectives It is as Michael Carasik demonstrates not a remote text reserved for churches and synagogues but rather a human document full of history poetry politics theology and spirituality Using historic linguistic anthropological and theological sources Carasik helps us distinguish between the Jewish Bible's voices the mythic the historical the prophetic the theological and the legal By articulating the differences among these voices he shows us not just their messages and meanings but also what mattered to the authors In these contrasts we encounter the Bible anew as a living work whose many voices tell us about the world out of which the Bible grew and the world that it created

People of the Image Marc Michael Epstein, 2025-06-24 The Middle Ages provide us with one of the richest repositories of art in the West Yet the rise in the production of art made for and by Jews especially in the form of illuminated manuscripts is often neglected in general surveys or viewed as a mere emulation of Christian art during this period In *People of the Image* Marc Michael Epstein demonstrates how medieval Jews transformed their visual art into a vital site of critical commentary Through bold speculation and radical interpretation Epstein considers how viewers might have empathized with depicted emotions how they envisioned the relationship between the monstrous and the human and how they could effectively perpetrate subversive acts merely by anticipating what might occur next in a given image were it to be set in motion Examining these artworks and imagining the circumstances of their production and reception Epstein uncovers otherwise inaccessible social political and theological perceptions among Europe's major medieval minority He goes on to illuminate the afterlives of medieval Jewish art in its reimaginings by postmodern Jews struggling to establish a conceptual as well as a political space for themselves as a minority in majority Christian society Bringing together diverse currents from various fields and bodies of literature *People of the Image* reveals how medieval Jews understood themselves the world and God Provocative and engagingly written the book will appeal to audiences across medieval studies cultural studies art history and Jewish studies

Deuteronomy Johanna W. H. van Wijk-Bos, 2025-11-15 Deuteronomy the final book of the Torah is ostensibly addressed to males but it does not mean it lacks a concern for women. In this commentary on Deuteronomy Johanna W H van Wijk Bos provides serious feminist engagement with the complete text paying specific attention to the effect it may have on women's perspectives and considers ways the text highlights female presence or absence. In this commentary van Wijk Bos encourages readers to question not only the patriarchal practices reflected in Deuteronomy but also modern misogynist and androcentric assumptions that they may bring to the world of the text. Divided into eleven sections Deuteronomy offers insight for our present time as well as an opportunity to hear new voices examine cultural and gender biased interpretations and draw other conclusions to open up new avenues of understanding God and ourselves.

Debating Authority Katharina Pyschny, Sarah Schulz, 2018-07-23 Human leadership is a multifaceted topic in the Hebrew Bible. This holds true not only for the final form of the texts but also for their literary history. A large range of distributions emerges from the successive sharpening or modification of different aspects of leadership. While some of them are combined to a complex figuration of leadership others remain reserved for certain individuals. Furthermore it can be considered a consensus within the scholarly debate that concepts of leadership have a certain connection to the history of ancient Israel which is though hard to ascertain. Up to now all these aspects of human leadership have been treated in a rather isolated manner. Against this background the volume focuses on the different concepts of leadership in the Pentateuch and the Former Prophets. Concepts like priest prophet judge and king are examined in a literary religious tradition historical and theological perspective. Hence the volume contributes to biblical theology and sheds new light on the redaction reception history of the Pentateuch and the Former Prophets. Not least it provides valuable insights into the history of religious and or political authorities in Israel and Early Judaism's.
