earth four pictures of mountains and under each picture give a brief description of the origin and character of the formation The same course has been followed with reference to other physical features The pupil will read these descriptions because of his interest in the picture and will remember them for life because of their association with it Commercial and Industrial Geography A leading feature of this book is the treatment of industrial and commercial geography In actual life it is a knowledge of the countries of the earth and of the people who inhabit them of their resources and industries their cities and commercial relations that one needs for practical business purposes or even for an intelligent appreciation of the contents of the daily newspapers Industrial Illustrations In carrying out this plan we have been engaged for three years past in collecting from all parts of the world industrial pictures photographs showing machinery in actual operation and under these we have placed descriptions which give in a few words a clear idea of the process of manufacture We have distributed these throughout the book in such a way as to identify each industry with some state or country where it is especially prominent We believe that this plan will awaken present interest and prove of permanent value About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *New Complete Geography* Charles Hayes, 2003 Accompanying the textbook for Junior Certificate this workbook contains word games and stimulating activities as well as past examination questions It also contains self correcting multiple choice questions that give the student instant results These extra questions can be used for homework or revision *Barnes's Complete Geography* James Monteith, 1895
