Murphy, 2017-06-09 Bringing together the ideas of experts from around the world this incisive text offers cutting edge perspectives on the risk analysis and governance of genetically modified organisms GMOs supporting effective and informed decision making in developing countries Comprised of four comprehensive sections this book covers integrated risk analysis and decision making giving an overview of the science involved and examining risk analysis methods that impact decision making on the release of GMOs particularly in developing countries diversification of expertise involved in risk analysis and practical ways in which the lack of expertise in developing countries can be overcome risk analysis based regulatory systems and how they can be undermined by power relationships and socio political interests as well as strategies for improving GMO policy development and regulatory decision making and case studies from developing countries providing lessons based on real world experience that can inform our current thinking

Law and Corporate Behaviour Christopher Hodges, 2015-10-22 This book examines the theories and practice of how to control corporate behaviour through legal techniques The principal theories examined are deterrence economic rational acting responsive regulation and the findings of behavioural psychology Leading examples of the various approaches are given in order to illustrate the models private enforcement of law through litigation in the USA public enforcement of competition law by the European Commission and the

recent reform of policies on public enforcement of regulatory law in the United Kingdom Noting that behavioural psychology has as yet had only limited application in legal and regulatory theory the book then analyses various European regulatory structures where behavioural techniques can be seen or could be applied Sectors examined include financial services civil aviation pharmaceuticals and workplace health safety Key findings are that enforcement has to focus on identifying the causes of non compliance so as to be able to support improved performance rather than be based on fear motivating complete compliance Systems in which reporting is essential for safety only function with a no blame culture The book concludes by proposing an holistic model for maximising compliance within large organisations combining public regulatory and criminal controls with internal corporate systems and external influences by stakeholders held together by a unified core of ethical principles Hence the book proposes a new theory of ethical regulation This title is included in Bloomsbury Professional's International Arbitration online service

The Governance of Credit Rating Agencies Andrea Miglionico, The global crisis revealed that credit rating agencies CRAs are capable of bringing about potential distortions in the financial sector thereby resulting in a reduction in market confidence which in turn influences negotiations and expectations CRAs need to be held accountable for lack of transparency and inaccurate ratings however the existing regulatory framework does not secure adequate investor protection This book provides a new and important contribution to research in the area at a crucial time in the debate around financial regulation and investment regimes

Dark Patterns, Deceptive Design, and the Law Mark Leiser, 2025-09-18 This book provides essential insights on dark patterns and AI powered deceptive design for anyone who wants to understand and challenge the pervasive influence of these hidden forces shaping our digital experiences These hidden design strategies from personalised user interface triggers to sophisticated backend systems are often used to manipulate user behaviour in ways that benefit businesses at the expense of users With advanced profiling driven by AI these deceptive techniques can tailor digital environments to each user raising significant questions about privacy control and the boundaries of digital design The book examines the response of regulators from the GDPR Digital Services Act and AI Act in the EU to emerging frameworks in the USA Brazil and India Through real world examples it explains how these laws fail to address deceptive design practices and explores the implications for privacy autonomy and consumer protection in the digital age By uncovering the complex layers of modern deceptive design the book equips readers with the knowledge to recognise these tactics and consider their impact on user choice and trust It is essential reading for legal professionals digital rights advocates designers and anyone invested in fair digital practices

Shared Responsibility, Shared Risk Jacob Hacker, Ann O'Leary, 2011-08-15 The collapse of the financial markets in 2008 and the resulting Great Recession merely accelerated an already worrisome trend the shift away from an employer based social welfare system in the United States Since the end of World War II a substantial percentage of the costs of social provision most notably unemployment insurance and health insurance has been borne by employers rather than the state The US has long been unique among advanced economies in this regard but in recent years its social contract has become so frayed that is fast becoming unrecognizable Despite Obama s election the burdens of social provision are falling increasingly upon individual

families and the situation is worsening because of the unemployment crisis How can we repair the American social welfare system so that workers and families receive adequate protection and if necessary provision from the ravages of the market In Shared Responsibility Shared Risk Jacob Hacker and Ann O Leary have gathered a distinguished group of scholars on American social policy to address this most fundamental of problems Collectively they analyze how the privatization of risk has increased hardships for American families and increased inequality They also propose a series of solutions that would distribute the burdens of risks more broadly and expand the social safety net The range of issues covered is broad health care homeownership social security and aging unemployment wealth as opposed to income creation education and family friendly policies The book is also comparative measuring US social policy against the policies of other advanced nations Given the current crisis in America social policy and the concomitant paralysis within government the book has the potential to make an important intervention in the current debate
