Small Business and the Energy Crisis, Hearings Before the Subcommittee on Small Business and the Energy Crisis, 93-2 on S. 2760 ... S. 3096 ... S. 3217 ..., April 30: May 1, 1974 United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 1974 **Small Business and the Energy Crisis** United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs. Subcommittee on Small Business, 1974 *Congressional Record* United States. Congress, 1995 No Exit James McAllister, 2018-09-05 James McAllister outlines a new account of early Cold War history one that focuses on the emergence of a bipolar structure of power the continuing importance of the German question and American efforts to create a united Western Europe Challenging the conventional wisdom among both international relations theorists and Cold War historians McAllister argues that America's central objective from the Second World War to the mid 1950s was to create a European order that could be peaceful and stable without requiring the permanent presence of American ground forces on the continent The permanent presence of American forces in Europe is often seen as a lesson that policymakers drew from the disastrous experiences of two world wars but McAllister's archival research reveals that both FDR and Eisenhower as well as influential strategists such as George Kennan did not draw this lesson In the short term American power was necessary to balance the Soviet Union and reassure Western Europe about the revival of German power but America's long term objective was to create the conditions under which Western Europe could take care of both of these problems on their own In the author's view the key element of this strategy was the creation of the European Defense Community If Western Germany could be successfully integrated and rearmed within the context of the EDC Western Europe would have taken the most important step to becoming a superpower on par with the United States and the Soviet Union Understanding why this strategy was pursued and why it failed McAllister asserts has important implications for both international relations theory and contemporary questions of American foreign policy *WORLD SYSTEM HISTORY-Volume I* George Modelski and Robert A. Degani,2015-01-04 Based on a selection of 30 election campaign speeches during Obama s first run for the American presidency in 2008 this book investigates the Democratic presidential candidate s much celebrated rhetoric from a cognitive semantics point of view Globalization and Global History Barry K. Gills,William Thompson,2012-11-12 Globalization and Global History argues that globalization is not an exotic and new phenomenon Instead it emphasizes that globalization is something that has been with us as long as there have been people who are both interdependent and aware of that fact Studying globalization from the vantage point of long term global history permits theoretical and empirical investigation allowing the authors collected to assess the extent of ongoing transformations and to compare them to earlier iterations With this historical advantage the extent of ongoing changes which previously appeared unprecedented can be contrasted to similar episodes in the past The book is divided into three sections The first focuses on how globalization has been written about from a historical perspective The second part advances three different takes on how best to view globalization from a very long term stance The final section continues this interpretative thread by examining more narrow aspects of globalization processes ranging from incorporation processes to systemic disruptions *Restoring the Eastern Mediterranean as a U.S. Strategic Anchor* Jon B. Alterman,Heather A. Conley,Haim Malka,Donatienne Ruy,2018-06-05 U S strategy in the Eastern Mediterranean is long overdue for revision Today s strategy was conceived 70 years ago and is no longer fit for purpose despite the continued strategic importance of the region for U S interests To account for the dramatic changes that have occurred in the Eastern Mediterranean in the past two decades it is time for the United States to create a new regional strategy that builds on common transatlantic interests ensures European

unity and security provides greater stability in the Middle East and safeguards state capacity against a myriad of strengthening nonstate actors This report aims to offer such a new strategy focusing on two priority areas resolving the Syrian conflict and recalibrating the relationship with Turkey Much is at stake for the United States and it must take a new strategic approach to the region or risk losing influence for the foreseeable future **Rural Development in Latin**
