The Routledge Handbook of Translation and Cognition provides a comprehensive state of the art overview of how translation and cognition relate to each other discussing the most important issues in the fledgling sub discipline of Cognitive Translation Studies CTS from foundational to applied aspects With a strong focus on interdisciplinarity the handbook surveys concepts and methods in neighbouring disciplines that are concerned with cognition and how they relate to translational activity from a cognitive perspective Looking at different types of cognitive processes this volume also ventures into emergent areas such as neuroscience artificial intelligence cognitive ergonomics and human computer interaction With an editors introduction and 30 chapters authored by leading scholars in the field of Cognitive Translation Studies this handbook is the essential reference and resource for students and researchers of translation and cognition and will also be of interest to those working in bilingualism second language acquisition and related areas

A Qualitative Approach to Translation Studies Elisa Calvo, Elena de la Cova, 2023-12-22

This collection invites readers to explore innovative or underexploited ways of working qualitatively with what in Translation Studies may be termed as elusive constructs The volume adopts a functionalist approach to focus on one such concept namely the notion of translation problem using case studies to illustrate how a

significant elusive construct can be addressed empirically It explores different qualitative research methodologies which although well established in other fields are yet to be extensively used in TS but which may nevertheless prove to be of significance for future studies as they allow elusive concepts typically found in TS to be worked with more coherently Chapters are structured around two core ideas first the qualitative systematic analysis of source text content with emphasis on the detection of translation problems as a means of creating efficient frameworks for coherent decision making from a functional perspective and secondly the practical process of stereotyping and profiling specific problems within different contexts content types or services to help identify manage and resolve them in a number of settings from research to professional translator training and assessment environments This book will be of interest to scholars in translation studies particularly those with an interest in qualitative approaches

Sociopolitical Perspectives on Language Policy and Planning in the USA Thom Huebner, Kathryn A. Davis, 1999-11-15 This volume is the result of a colloquium on socio political dimensions of language policy and language planning held at the 1997 American Association of Applied Linguistics AAAL Conference The focus is on language planning and policy in the USA but the issues raised will be applicable to other parts of the world as well Three broad issues are addressed general aspects case studies dealing with certain languages or ethnic groups and language planning in practice The first general part provides a historical analysis of language planning and language policy in the US and proceeds to deal with maintenance and loss of indigenous languages and the constraints imposed by current policies and how these constraints can be effectively dealt with The second part contains a number of case studies It discusses aspects of planning policies pertaining to pidgin languages gestural languages used by the deaf ASL and constraints in foreign language education this part also raises issues relating to ethnic groups concentrating on the position of Mexicans and Puerto Ricans in the US In the third part some practical issues are raised by looking into the role of language and culture in teaching reading foreign language policy in higher education Hawaiian language renaissance and gender neutralization in American English The book is a tribute to Charlene Junko Sato a sociolinguist and a language activist She died in 1996 and will be remembered for her work not only in linguistics but also for her dedication in advancing Hawaiian Pidgin influencing language policy through various publications and court room appearances

Havu, 2015-04-07 This book presents the latest work in the field of complementation studies Leading scholars and upcoming researchers in the area approach complementation from various perspectives and different frameworks such as Cognitive Grammar and construction grammars to offer a broad survey of the field and provide thought provoking reading

Corpus Perspectives on the Spoken Models used by EFL Teachers Angela Farrell, 2019-11-12 Corpus Perspectives on the Spoken Models used by EFL Teachers illustrates the key principles and practical guidelines for the design and exploitation of corpora for classroom based research Focusing on the nature of the spoken English used by L2 teachers which serves as an implicit target model for learners alongside the curriculum model

this book brings an innovative perspective to the on going academic debate concerning the models of spoken English that are taught today Based on research carried out in the EFL classroom in Ireland this book explores issues and challenges that arise from the use of non standard varieties of spoken English by teachers alongside the use of Standard British English and examines the controversies surrounding sociolinguistic approaches to the study of variation in spoken English combines quantitative corpus linguistic investigations with qualitative functional discourse analytic approaches from pragmatics and SLA for classroom based research demonstrates the ways in which changing trends and perspectives surrounding spoken English may be filtering down to the classroom level Drawing on a corpus of 60 000 words and highlighting strategies and techniques that can be applied by researchers and teachers to their own research context this book is key reading for all pre and in service teachers of EFL as well as researchers in this field **Evaluating the Evaluator** Hansjörg

Bittner,2019-11-28 This book offers a theoretical framework for assessing translation quality grounded in supportive argumentation The volume outlines a systematic framework for translators and translation critics to substantiate their decisions and judgments on a translation s quality and in the case of negative criticism put forward a more effective translation solution The book traces the decision making process underpinning translation practice considering the different factors surrounding a particular translation to inform the most appropriate translation strategy such as the temporal and geographical relationship between source and target texts special provisions required by clients timeframe qualifications and sociocultural and political issues The framework posits that such factors should underpin any arguments used by the translator in adopting a given strategy and in turn that any criticism of a translation s quality must be in line with the same argumentative structure Applied to a corpus of translation examiners reports of translation the book demonstrates how this framework can act as a tool to be scaled to fit the needs of the different actors of a translation translators critics and scholars This book will be of interest to scholars in translation studies and practicing translators **Critical Perspectives on**

Language Teaching Materials J. Gray,2013-11-27 This Critical Perspectives on Language Teaching Materials brings together a collection of critical voices on the subject of language teaching materials for use in English French Spanish German and Content and Language Integrated Learning CLIL classrooms *From Data to Evidence in English Language*

Research Carla Suhr,Terttu Nevalainen,Irma Taavitsainen,2019-01-07 From Data to Evidence in English Language Research draws on diverse digital data sources alongside more traditional linguistic corpora to offer new insights into the ways in which they can be used to extend and re evaluate research questions in English linguistics This is achieved for example by increasing data size adding multi layered contextual analyses applying methods from adjacent fields and adapting existing data sets to new uses Making innovative contributions to digital linguistics the chapters in the volume apply a combination of methods to the increasing amount of digital data available to researchers to show how this data both established and newly available can be utilized enriched and rethought to provide new evidence for developments in the English language

Exploring the Self, Subjectivity, and Character across Japanese and Translation Texts Senko K. Maynard, 2022-01-17

From the perspective of philosophical contrastive pragmatics this study investigates our multiple selves as manifested in how we use language Based on analyses of original and translation texts of Japanese and English literary works the Japanese self is proposed as being fundamentally empty and yet richly populated with multiple subjective aspects characters and characteristics Incorporating the concept of emptiness drawn from Japanese philosophical traditions and postmodernism primarily developed in the West selves evidenced in grammar style and variation are investigated applying interpretive resources of linguistic subjectivity character and character speak Expressive gaps found in source and target texts across two languages lead us toward different ontological views and guide us to engage in the rethinking of the concept of self

New Perspectives on Bare Noun Phrases in Romance and Beyond Johannes Kabatek, Albert Wall, 2013-11-15 This book envisions the study of bare noun phrases as a field of research in its own right rather than an accessory matter in the wider domain of nominal determination Combining insights from different theoretical backgrounds and extending the empirical coverage of bare noun phenomena the ten contributions provide new perspectives on long standing but still actively debated problems as well as investigations into previously ignored issues The volume focuses on the wide range of bare noun phenomena in Romance languages including Spanish Catalan Brazilian and European Portuguese Italian and French but also widens its inherently comparative perspective to languages such as Bulgarian and Modern Hebrew The authors discuss the importance of cross linguistic patterns in the modeling of the syntax and semantics of noun phrases and of common noun denotations the role of information structure as well as that of discourse traditions and coordination

New Perspectives on Chinese Syntax Waltraud Paul, 2014-12-12 Mandarin Chinese has become indispensable for crosslinguistic comparison and syntactic theorizing It is nevertheless still difficult to obtain comprehensive answers to research questions because Chinese is often presented as an exotic language defying the analytical tools standardly used for

other languages This book sets out to demystify Chinese It places controversial issues in the context of current syntactic theories and offers precise analyses based on a large array of representative data Although the focus is on Modern Mandarin earlier stages of Chinese are occasionally referred to in order to highlight striking continuities in its history VO order is one such constant factor thus invalidating the idea that Chinese went through a major word order change from OV to VO and back to OV Another claim often made for Chinese as an isolating language viz the existence of an impoverished inventory of parts of speech is likewise refuted Other long debated issues addressed here include the relevance of the dichotomy topic vs subject prominence and the role of Chinese as a recurring exception to crosscategorical harmonies posited in typological studies

Translation between English and Arabic Noureldin Abdelaal, 2020-02-18 This textbook provides a comprehensive resource for translation students and educators embarking on the challenge of translating into and out of English and Arabic Combining a solid basis in translation theory with examples drawn from real texts including the Qu ran the author introduces a number of the problems and practical considerations which arise during translation between English and Arabic equipping readers with the skills to recognise and address these issues in their own work through practical exercises Among these considerations are grammatical semantic lexical and cultural problems collocations idioms and fixed expressions With its coverage of essential topics including culturally bound terms and differences both novice and more experienced translators will find this book useful in the development of their translation practice
