Mulder, 2024-12-19 Does Jesus care how I arrange the desks in my classroom How I evaluate student work The way I interact with students and colleagues What if all these small moment by moment classroom decisions a Christian teacher makes are actually the evidence of living discipleship Teaching Christianly does not just happen it is the result of deliberate choices to work toward shrinking the gap between what we say we believe and what we actually do in our teaching This book is an exploration of the teaching profession through the lens of living out our calling through teaching as discipleship Whether you are new to the profession or a seasoned veteran you will find ideas to expand your imagination about what teaching Christianly looks like considering topics that run the range from professionalism and ethics to a biblical view of learners and learning to content knowledge and curriculum to planning instruction and assessment Teaching Christianly is a journey a process of growing as a more faithful disciple and more closely following Jesus day by day Learning to teach Christianly is an adventure of always becoming and never arriving until that day when we meet the Lord face to face Welcome to the adventure Bringing Christ to the Classroom Charissa Dunn, 2018-09-13 As a Christian educator have you considered that you probably have more daily ministry opportunities than your pastor You shape the next generation in countless ways through your conduct character and conversation so how can you most effectively share this gift that God has given you Bringing Christ to the Classroom equips you to be an even more effective educator and follower of Christ through investigating scripture illuminating what Jesus did as the master teacher and integrating your discoveries into your instruction and interactions with students Author and professor Charissa Dunn shares her own journey as a Christian educator so that others called to teach can discover what Jesus did to earn the title of the master teacher applying what they learn to their positions as Christian educators Bringing Christ to the Classroom can also help you connect with Gods message

on a deeper level while you pray for guidance listen to his voice and ask him for transformation God provided you with the talents abilities and experiences required to serve as an educator and he called you as an educator for such a time as this

Mulder,2025-09-18 Are the machines taking over Artificial intelligence suddenly seems to be everywhere including in the world of education With new AI powered tools popping up every day it s no wonder that educators might feel overwhelmed How can we navigate the strange new world of AI without losing our humanity or our sense of humor Blending thoughtful theology practical wisdom and a deep love for teaching this book invites educators to reflect on big questions What does it mean to be a real human in an age of artificial intelligence What tools should we adopt and which ones should we avoid and how can we decide How do we stay grounded in the gospel story while adapting to emerging technologies Rather than offering easy answers or alarmist warnings let s consider an approach that is curious and courageous developing a hopeful vision for education that forms both minds and hearts Standing on the truth of Scripture and keeping a finger on the tech pulse this book helps Christian educators practice thinking faithfully acting ethically and teaching joyfully even when algorithms are everywhere Teaching Christianly with technology isn t about keeping up with the latest tools and trends it s about being the humans God created us to be

Religious Faith and Teacher Knowledge in English Language Teaching Bradley Baurain,2016-01-14 The field of TESOL Teaching English to Speakers of Other Languages stands at an active crossroads issues of language culture learning identity morality and spirituality mix daily in classrooms around the world What roles might teachers personal religious beliefs play in their professional activities and contexts Until recently such questions had been largely excluded from

academic conversations in TESOL Yet the qualitative research at the core of this book framed and presented within a teacher knowledge paradigm demonstrates that personal faith and professional identities and practices can and do interact and interrelate in ways that are both meaningful and problematic This study's Christian TESOL teacher participants working overseas in Southeast Asia perceived explained and interpreted a variety of such connections within their lived experience As a result the beliefs practices nexus deserves to be further theorized researched and discussed Religious beliefs and human spirituality as foundational and enduring aspects of human thought and culture and thus of teaching and learning deserve a place at the TESOL table

Practice and Profile Johan Hegeman, Margaret Edgell, Henk Jochemsen, 2011-02-28 Too many students are disappointed They want to make a difference in their chosen professions They are inspired by successful visionaries but they have little idea how to follow in their oversized footsteps Their colleges and universities promise more professional development than they can possibly deliver especially in terms of moral development for the professions Experts coming from a range of perspectives in higher education agree that moral formation for the professions must increasingly take place in higher education Tragically the recent evolution of teaching has stripped educators of much of the rationale for moral formation The recent record of moral lapses by managers testifies to this crisis of moral education The authors call for a revival of moral formation in higher education for the professions They supply the needed resources to redesign classic as well as cutting edge teaching and learning toward practical moral education in the professions This book is carefully designed to apply traditional Christian principles appropriately to evolving professional practices The authors strategies address the problems surrounding calling vocation and the growing need for virtue training in the professions In particular the authors provide clear direction for how to meet the need for professional profiles that meet the standards of the marketplace *Practice and Profile* provides the reader with a tested and proven model of faith formation appropriate to the professions It also goes into specific useful detail as to how the model mobilizes learning in classroom and professional settings It aids institutions of higher learning in their struggle with demands for new learning environments and new moral competencies Foremost it gives students a grasp of how to become dedicated professionals who make a difference
