custodians of the land but as the conflict escalated they became unwilling pawns in the fight to control the country's destiny. They were forced from their homes and herded into PNG controlled care centres or were forced to live on the run fleeing to the jungle to escape violence, rape and military rule. Normal society fractured as fear and anarchy took hold. With no access to health, education and basic community services, women were forced to call on traditional knowledge and self-reliance to rebuild a sense of community in the heart of the jungle. They also began to build a women's movement for peace and freedom. As Mothers of the Land is a record of the years of war and the quest for peace told by the women who lived through it. It is an essential record of the vital role women played in the Bougainville peace process and their remarkable achievements in a country torn apart by decades of violent struggle.

**Nine Days** Fred Hiatt, 2014-04-08 A fast-paced contemporary thriller in the vein of James Patterson and Anthony Horowitz set against the bustling backdrop of Hong Kong, Vietnam and the border of China. This heart-pounding adventure takes place as two teens, an American teenage boy and his friend, a Chinese girl from his Washington DC area high school, must find her father who has been kidnapped and they only have nine days. Although the characters in the novel are fictionalized, they are based on a real Chinese family who were part of the Chinese Democracy Movement and inspired this story. Few mysteries combine cultural diversity, politics and physical danger with a lighthearted friendship. This engaging mix will have great appeal.

**Clones, Fakes and Posthumans**, 2015-06-24 Clones Fakes and Posthumans Cultures of Replication explores cloning and related phenomena that inform each other like twins fakes replica or homogeneities through a cultural prism What could it mean to think of a cloning mentality Could it be that a cloning culture has made biotechnological cloning desirable in the first place and vice versa that biotechnological cloning then enforces technologies of social and cultural cloning What does it mean to say that a culture replicates If biotechnological cloning has to do with choice and repetitive reproduction of selected characteristics how are those kinds of desires expressed socially politically and culturally Lifting the issue of cloning above the biotechnological domain we problematize the cultural context including modernity s readiness to imitate and manipulate nature and the skewed privileging of desirable socialities as a basis for exclusive replication We also explore possible relations between a cloning mentality and a consumer society
