Reader: Prague School Writings David Drozd, 2017-03-01 This is precisely the book I have been looking out for ever since working at my Das Drama Theorie und Analyse 1977 The Theory and Analysis of Drama 1988 and discovering from a few specimens the incisive usefulness and importance of Prague School theatre semiotics There is everything one could possibly wish for in this monumental Theatre Theory Reader Prague School Writings all the by now canonical texts and many others presented for the first time in English arranged in a systematic order which fully renders the sense of the scope and development of Czech theatre semiotics and all of them in highly competent translations aware of the terminological complexities at stake and supported by helpful annotations With such a rich harvest garnered this anthology of Prague School Writings is bound to become nationally as well as internationally a prime work of reference and give to them a second lease of life in the 21st century Manfred Pfister Modern theatre theory no matter what its orientation can trace its roots back to the structuralist and semiotic explorations of the Prague School in the early twentieth century This comprehensive and informed overview is therefore most welcome in understanding the course and development of that theoretical tradition It is not however of purely historical interest important as that is Whether they use the terminology of the Prague School or evoke the names of its contributors analysts of theatre and performance today still find the strategies and articulations of those pioneers of ongoing relevance This collection thus provides an important double service providing contemporary theatre scholars with a clearer idea of where they have come from and an inspiration for where they may be going Marvin Carlson I think it is a great idea not to group the articles according to the different authors but following a systematic that covers as many aspects of theatre as possible This way it becomes quite clear that the theories of the so called Prague or Czech structuralists and semioticians were able to apply their theories when discussing most diverging questions related to theatre The choice of texts is excellent It makes more than clear that these theories are not outdated do not only have historical value and are interesting with regard to the history of ideas only Rather it becomes evident that they are highly relevant in the context of discussions led today Erika Fischer Lichte The Prague School and the Czech structuralism have had a

considerable impact on the development of semiotic studies and theatre studies at large in the 1960s and 70s But this has been quickly forgotten and with the rise of poststructuralism and deconstruction in the 80s and 90s they were not only neglected but also unjustly disregarded or even forgotten This is why the Theatre Theory Reader Prague School Writings is a very welcome book which comes at the right moment when postmodernism poststructuralism and postdramatic theatre seem to have lost their momentum as if the requirements of today's quest for a new way of living and of making business had become so strong that we must go back to the basics Structuralism and a critique of ideology are now back at least as a sign to not give up thinking and theorizing in a world which has become self-centred and mad The afterword by Pavel Dr bek Martin Bern tek Andrea Jochmanov and Eva laisov is a sort of book within the book as it neatly puts in perspective all the important names and theories of the Prague School It does this in a very user-friendly manner where complex theories are summarized in a clear yet precise introduction This makes the reading of the different chapters easier and immediately connected to our contemporary way of thinking Patrice Pavis

Acrobatic Modernism from the Avant-Garde to Prehistory Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity's restructuring of the lifeworld the modernist avant-garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re-calibrated sensory ratios The criterion of the new as self-making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant-garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

The Optimum Imperative: Czech Architecture for the Socialist Lifestyle, 1938-1968 Ana Miljacki, 2017-02-03 The Optimum Imperative examines architecture's multiple entanglements within the problematics of Socialist lifestyle in postwar Czechoslovakia Situated in the period loosely bracketed by the signing of the Munich accords in 1938 which affected Czechoslovakia's entrance into World War II and the Warsaw Pact troops' occupation of Prague in 1968 the book investigates three decades of Czech architecture highlighting a diverse cast of protagonists Key among them are the theorist and

architect Karel Honzík and a small group of his colleagues in the Club for the Study of Consumption the award winning Czechoslovak Pavilion at the 1958 World Expo in Brussels and SIAL a group of architects from Liberec that emerged from the national network of Stavoprojekt offices during the reform years only to be subsumed back into it in the wake of Czechoslovak normalization This episodic approach enables a long view of the way that the project of constructing Socialism was made disciplinarily specific for architecture through the constant interpretation of Socialist lifestyle both as a narrative framework and as a historical goal Without sanitizing history of its absurd contortions in discourse and in daily life the book takes as its subject the complex and dynamic relationships between Cold War politics state power disciplinary legitimating narratives and Czech architects optimism for Socialism It proposes that these key dimensions of practicing architecture and building Socialism were intertwined and even commensurate at times through the framework of Socialist lifestyle

Handbook of Diachronic Narratology Peter Hühn, John Pier, Wolf Schmid, 2023-07-24 This handbook brings together 42 contributions by leading narratologists devoted to the study of narrative devices in European literatures from antiquity to the present Each entry examines the use of a specific narrative device in one or two national literatures across the ages whether in successive or distant periods of time Through the analysis of representative texts in a range of European languages the authors compellingly trace the continuities and evolution of storytelling devices as well as their culture specific manifestations In response to Monika Fludernik's 2003 call for a diachronization of narratology this new handbook complements existing synchronic approaches that tend to be ahistorical in their outlook and departs from postclassical narratologies that often prioritize thematic and ideological concerns A new direction in narrative theory diachronic narratology explores previously overlooked questions from the evolution of free indirect speech from the Middle Ages to the present to how changes in narrative sequence encoded the shift from a sacred to a secular worldview in early modern Romance literatures An invaluable new resource for literary theorists historians comparatists discourse analysts and linguists

the Stalinist dogma of socialist realism This study is a first attempt to define for us the character and originality of this era This title was first published in 1978 Wagner in Russia, Poland and the Czech Lands Stephen Muir, Anastasia Belina-Johnson, 2016-02-24 Richard Wagner has arguably the greatest and most long term influence on wider European culture of all nineteenth century composers And yet among the copious English language literature examining Wagner's works influence and character research into the composer's impact and role in Russia and Eastern European countries and perceptions of him from within those countries is noticeably sparse Wagner in Russia Poland and the Czech Lands aims to redress imbalance and stimulate further research in this rich area The eight essays are divided in three parts one each on Russia the Czech lands and Poland and cover a wide historical span from the composer's first contacts with and appearances in these regions through to his later reception in the Communist era The contributing authors examine his influences in a wide range of areas such as music literary and epistolary heritage politics and the cultural histories of Russia the Czech lands and Poland in an attempt to establish Wagner's place in a part of Europe not commonly addressed in studies of the composer

A History of the Czech Lands Jaroslav Pánek, Oldřich Tůma, 2018 Born January 1 1993 after it split with Slovakia the Czech Republic is one of the youngest members of the European Union Despite its youth as a nation this land and the areas just outside its modern borders boasts an ancient and intricate past With A History of the Czech Lands editors Jaroslav Pánek and Oldřich Tůma along with several scholars from the Academy of Sciences of the Czech Republic and Charles University provide one of the most complete historical accounts of this region to date Pánek and Tůma's history begins in the Neolithic

era and follows the development of the state as it transformed into the Kingdom of Bohemia during the ninth century into Czechoslovakia after World War I and finally into the Czech Republic. Such a tumultuous political past arises in part from a fascinating native people and *A History of the Czech Lands* profiles the Czechs in great detail, delving into past and present traditions and explaining how generation after generation adapted to a perpetually changing government and economy. In addition, Pánek and Tuma examine the many minorities that now call these lands home: Jews, Slovaks, Poles, Germans, Ukrainians, and others, and how each group's migration to the region has contributed to life in the Czech Republic today. The first study in English with this scope and ambition, *A History of the Czech Lands* is essential for scholars of Slavic, Central, and East European studies and a must read for those who trace their ancestry to these lands.
