Ransome, 2023-07-31 Discover the fascinating world of the bee a source of abundant nourishment and inspiration for mankind throughout history In this now classical book follow scholar Hilda Ransome s rich exploration of beliefs and superstitions woven around this industrious insect and the profound impact it left on human culture and spirituality From the revered honey hailed as the food of the Gods by the ancient Greeks to its integral role in ancient religious ceremonies and folktales of diverse cultures Ransome presents a meticulously researched exploration into a fascinating corner of cultural history *The Death of a Beekeeper* Lars Gustafsson, 1981 The celebrated Swedish author s American debut The Death of a Beekeeper is a gentle courageous and sometimes comic meditation on living with pain

The Funambulist Papers Funambulist Papers, 2015-04-09 This book is the second volume of texts curated specifically for The Funambulist since 2011 The editorial line of this second series of twenty six essays is dedicated to philosophical and political questions about bodies This choice is informed by L opold Lambert s own interest in the often violent relation between the designed environment and bodies Corporeal politics do not exist in a void of objects buildings and cities on the contrary they operate through the continuous material encounters between living and non living bodies Several texts proposed in this volume examine various forms of corporeal violence racism gender based violence etc This examination

however can only exist in the integration of the designed environment's conditioning of this violence. As Mimi Thi Nguyen argues in the conclusion of this book's first chapter, the process of attending to the body unhooded, unveiled, unclothed cannot be the solution to racism because that body is always already an abstraction, an effect of law and its violence. Although the readers won't find indications about the disciplinary background of the contributors, the witty self-descriptions at the end of the book, being preferred to academic resumes, the content of the texts will certainly attest to the broad imaginaries at work throughout this volume. Dialogues between dancers and geographers, between artists and biohackers, between architects and philosophers, and so forth, provide the richness of this volume through difference rather than similarity. The *Funambulist Papers* are published by the CTM Documents Initiative imprint, Center for Transformative Media, Parsons School of Design, The New School. CTM is a transdisciplinary media research initiative bridging design and the social sciences and dedicated to the exploration of the transformative potential of emerging technologies upon the foundational practices of everyday life across a range of settings.
