Turf, Field and Farm , 1866 Spirit of the Times and the New York Sportsman , 1868 UK Horse Racing Betting Systems Mark Horrocks, I graduated from University with a computer science degree many years ago when a degree meant something I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle I started my own computer business in my early 20 s where I made good money and travelled across Europe It was at this point in my life

I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at 2K per advert and offices I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business In my late 30 s around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair This is where I believed maximum profit could be gained The computer model allowed me to process 100 s of handicap races per day and then formulate my system tweeking a horse s weight and BHB or OR Official Rating I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data I eventually found the correct weight and BHB rating for a horse based on it s last performances in handicap races This eBook outlines this system and can be manually applied easily using the Racing Post on the internet
