Individuals of Capitalism (RLE Social Theory) Bryan S. Turner, Nicholas Abercrombie, Stephen Hill, 2014-08-21 In this sequel to their acclaimed *The Dominant Ideology Thesis* the authors develop their analysis of the social and cultural underpinnings of modern capitalism They confront a central assumption of western culture namely that the individual is sovereign and that capitalism above all other economic forms depends on individualism These ideas have an unbroken history from Alexis de Tocqueville to Milton Friedman The paradox of the modern world is that the moral emphasis on the individual is contradicted by the actual organization of economy and society The authors suggest that individualism and capitalism have no enduring or necessary relationship Their linkage is entirely accidental and was confined to one particular historical period in the West Against the background of what they term the Discovery of the Individual the authors show how individualism gave capitalism a particular shape and capitalism in turn highlighted the possessive features of the individual Oriental capitalism and late capitalism in the West bear no particular relationship to individualism indeed they flourish best in the absence of individualistic culture Collectivism increasingly dominates both economic and social life These issues once informed the sociological enterprise but have not been systematically addressed in recent times This book revives the classical tradition of the historical and comparative analysis of culture and economy in capitalist society in the context of the late twentieth century world

Women in Leadership Positions in the People's Republic of China Maria Adnane, 2020-06-02 Master's Thesis from the year 2012 in the subject Business economics Business Management Corporate Governance grade 1 7 Heilbronn University language English abstract Women are still significantly underrepresented in Top Management positions and leadership is still associated with the male gender as leadership theories traditionally focus on men This is especially evident in China which has one of the world's highest female labor participation but a female share of only eight percent on the corporate boards Although Chinese women's tertiary educational attainment is now equal to the tertiary education of Chinese men they still face many barriers on their way to the top The strong influence of Confucian values perceiving women as inferior to men remains noticeable until today and women find themselves exposed to a strongly patriarchal business environment As being traditionally the main care givers of their families they are deemed to be expensive potential mothers and thus gender preference can be observed second Classical leadership theories of the Western culture as well as of the Chinese culture are introduced to provide a common understanding of their approaches Further the situation of women in the past and of today is being compared as well as their leadership styles access to managerial

leadership positions and the barriers they face Since educational attainment of both genders does not explain why women are rarely found on the upper managerial ranks other reasons that could be a barrier for women s career advancement are examined in this research *Dark and Destructive Leadership* Peter D. Harms,2024-07-01 Destructive leadership has become an umbrella term for a range of toxic leader behaviors intentional or unintentional which are associated with negative outcomes for followers and or organizations Einarsen et al 2007 Krasikova et al 2013 Mitchell et al 2023 Schyns Thoroughgood 2021 By contrast dark leadership concerns the psychological mindset of the leaders not just what they do but also why they do it Hogan Sherman 2022 To this end it assesses the traits motives abilities and perceptual tendencies that lead to patterns of toxic leader behaviors that we label as being destructive see Hogan et al 2021 This book is intended to provide an in depth look at the topic of Dark and Destructive Leadership Our author teams have provided insights into the origins and history of dark leadership the personality and developmental antecedents associated with destructive leadership behaviors the differential reaction of various types of followers to these toxic leadership styles advances in the assessment and analysis of dark and destructive leadership styles the differential display of these characteristics based on gender and what we currently know about developmental and training interventions for leaders in danger of being derailed by these characteristics **Language, Charisma, and Creativity** Thomas J. The Jesus People Movement Richard A. Bustraan,2014-02-13 Who would have imagined that the hippies those long haired psychedelia influenced youth of the 1960s would have initiated a spiritual revolution that has transformed American Christianity If you are unfamiliar with the 1960s the counterculture the hippie movement and the Jesus People then this book will transport you to that era and introduce you to the generation and the decade that turned American culture upside down If you have read other books on the Jesus People this account will take you by surprise A refreshingly different narrative that unveils a storyline and characters not commonly known to have been associated with the movement this book argues that the Jesus People though often trivialized and stigmatized as a group of lost and vulnerable youth who strayed from the Fundamentalism of their childhood helped American Christianity negotiate a way forward in a post 1960s culture It examines the narrative of the Holy Spirit and the phenomenon called Pentecostalism Although utterly central the Jesus People s Pentecostalism has never been examined and their story has been omitted from the historiography of Pentecostalism This account uniquely redresses this omission

Pentecostal Theology Wolfgang Vondey,2017-07-13 Winner of the Pneuma Book Award 2018 from The Society for Pentecostal Studies Pentecostalism is the most rapidly growing branch of Christianity since the 20th century yet it does not lend itself well to a singular doctrine and there is therefore no single comprehensive account of Pentecostal theology worldwide In this volume Wolfgang Vondey suggests an account of Pentecostal theology that is genuine to Pentecostals worldwide while allowing for different adaptation and explication among the various Pentecostal groups He argues that Pentecostal theology is fundamentally concerned with the renewal of the Christian life identified by the transforming work of the Holy Spirit and directed toward the kingdom of God The book unfolds in two main parts illustrating the full gospel story and theology Eleven chapters identify the spiritual underpinnings and motivations for Pentecostal theology formulate a Pentecostal theology of action translate apply and exemplify Pentecostal practices and experiences and integrate Pentecostal theology in the wider Christian tradition
