A Qualitative Approach to Translation Studies Elisa Calvo, Elena de la Cova, 2023-12-22 This collection invites readers to explore innovative or underexploited ways of working qualitatively with what in Translation Studies may be termed as elusive constructs The volume adopts a functionalist approach to focus on one such concept namely the notion of translation problem using case studies to illustrate how a significant elusive construct can be addressed empirically It explores different qualitative research methodologies which although well established in other fields are yet to be extensively used in TS but which may nevertheless prove to be of significance for future studies as they allow elusive concepts typically found in TS to be worked with more coherently Chapters are structured around two core ideas first the qualitative systematic analysis of source text content with emphasis on the detection of translation problems as a means of creating efficient frameworks for coherent decision making from a functional perspective and secondly the practical process of stereotyping and profiling specific problems within different contexts content types or services to help identify manage and resolve them in a number of settings from research to professional translator training and assessment environments This book will be of interest to scholars in translation studies particularly those with an interest in qualitative approaches The Concise Oxford Companion to English Literature Dinah Birch, Katy Hooper, 2012-06-14 This book provides a compact guide to all aspects of English literature For this edition existing entries have been updated and new entries have been added on contemporary writers such as Jim Crace and Pat Barker Publishers' Circular and Booksellers' Record of British and Foreign Literature, 1901 The Canada Income Tax Act: Enforcement, Collection, Prosecution - 2021 Edition (slightly updated) ... Affirmative Action Policies and Judicial Review Worldwide George Gerapetritis, 2015-08-03 This book discusses affirmative action or positive discrimination defined as measures awarding privileges to certain groups that have historically suffered discrimination or have been underrepresented in specific social sectors The book s underlying rationale is that one cannot place at the same starting point people who have been treated differently in the past because in this way one merely perpetuates a state of difference and in turn social gaps are exaggerated and social cohesion is endangered Starting out with an introduction on the meaning and typology of affirmative action policies the book goes on to emphasise the interaction of affirmative action with traditional values of liberal state such as equality meritocracy democracy justice liberalism and socialism It reveals the affirmative action goals from a legal and sociological point of view examining the remedial cultural societal pedagogical and economy purposes of such action After applying an institutional narrative of the implementation of

affirmative action worldwide the book explains the jurisprudence on the issue through syntheses and antitheses of structural and material variables such as the institutional recognition of the policies the domains of their implementation and their beneficiaries The book eventually makes an analytical impact assessment following the implementation of affirmative action plans and the judicial response especially in relation to the conventional human rights doctrine by establishing a liaison between affirmative action and social and group rights The book applies a multi disciplinary and comparative methodology in order to assess the ethical standing of affirmative action policies the public interests involved and their effectiveness towards actual equality In the light of the above analysis the monograph explains the arguments considering affirmative action as a theology for substantive equality and the arguments treating this policy as anathema for liberalism A universal discussion currently at its peak
