Pragmatics and Law Francesca Poggi,Alessandro Capone,2016-12-01 This volume is the second part of a project which hosts an interdisciplinary discussion about the relationship among law and language legal practice and ordinary conversation legal philosophy and the linguistics sciences An international group of authors from cognitive science philosophy of language and philosophy of law question about how legal theory and pragmatics can enrich each other In particular the first part is devoted to the analysis of how pragmatics can solve problems related to legal theory What can pragmatics teach about the concept of law and its relationship with moral and in particular about the eternal dispute between legal positivism and legal naturalism What can pragmatics teach about the concept of law and or legal disagreements The second part is focused on legal adjudication it aims to construct a pragmatic apparatus appropriate to legal trial and or to test the tenure of the traditional pragmatics tools in the field The authors face questions such as Which interesting pragmatic features emerge from legal adjudication What pragmatic theories are better suited to account for the practice of judgment or its particular aspects such as the testimony or the binding force of legal precedents Which pragmatic and socio linguistic problems are highlighted by this practice

Communication and Sensory Loss Kathryn Crowe,2024-08-14 This collection explores communication differences in individuals with sensory impairment loss relevant to health and education students and professionals Children and adults with hearing vision and dual sensory impairment loss may experience differences and or difficulties with communication This book goes beyond describing sensory loss to encourage readers to think about sensory loss and communication as part of a biopsychosocial view of health and the intersecting identities of the clients and families that they service The book takes a strengths based evidence informed approach and utilises the International Classification

of Functioning Disability and Health ICF of the World Health Organization WHO Each chapter focuses on either children or adults with hearing vision dual sensory impairment loss or sensory loss and complex communication needs Each chapter introduces the group described in the chapter and issues around appropriate use of terminology followed by a discussion of the sensory impairment loss and communication needs considered within each component of the ICF Chapters conclude with case studies highlighting cultural and linguistic diversity high resourced and low resourced contexts and intersecting identities in which the framework of the ICF is applied This book is a valuable resource for scholars educators and clinicians interested in evidence based practices to support their work with individuals experiencing sensory loss

The Oxford Handbook of Pragmatics Yan Huang, 2017-01-26 This volume brings together distinguished scholars from all over the world to present an authoritative thorough and yet accessible state of the art survey of current issues in pragmatics Following an introduction by the editor the volume is divided into five thematic parts Chapters in Part I are concerned with schools of thought foundations and theories while Part II deals with central topics in pragmatics including implicature presupposition speech acts deixis reference and context In Part III the focus is on cognitively oriented pragmatics covering topics such as computational experimental and neuropragmatics Part IV takes a look at socially and culturally oriented pragmatics such as politeness impoliteness studies cross and intercultural and interlanguage pragmatics Finally the chapters in Part V explore the interfaces of pragmatics with semantics grammar morphology the lexicon prosody language change and information structure The Oxford Handbook of Pragmatics will be an indispensable reference for scholars and students of pragmatics of all theoretical stripes It will also be a valuable resource for linguists in other fields including philosophy of language semantics morphosyntax prosody psycholinguistics and sociolinguistics and for researchers and students in the fields of cognitive science artificial intelligence computer science anthropology and sociology

Language in Dementia Louise Cummings, 2020-10 Using linguistic data this book examines language and communication in dementias and their clinical treatment by language pathologists

Handbook of Pragmatic Language Disorders Louise Cummings, 2021-09-22 This reference work is the first to examine pragmatic language disorders of clients in complex and underserved populations In chapters written by a range of experts the unique pragmatic language skills of clients are examined allowing for a broad overview The text gives focus to client groups with complex cognitive and psychiatric problems and children and adults that have been underserved by clinical language services because of maltreatment and social exclusion Pragmatic disorders are examined in children with sensory loss children who have been exposed to HIV and substance abuse and adults with Huntington's disease and other complex neurodegenerative pathologies This Handbook is an essential reference for researchers and clinicians in speech language pathology linguistics psychology and education

Language Research in Post-Traumatic Stress Yvette D. Hyter, 2024-07-25 This collection brings together different perspectives on post traumatic stress considering its causes its impact on different groups and ways forward toward equipping speech language clinicians

educators and scholars to better understand and support the individuals and communities with which they work The volume defines post traumatic stress unpacking its causes and how they might be mitigated The 11 chapters critically reflect on the wide ranging effects traumatic stress has on the brain communication language literacy and life skills of different groups including children adolescents adults refugees and victims of racialized violence This book also includes examples of interventions demonstrated to be effective with affected individuals The range of perspectives highlights the importance of culturally responsive and trauma informed practices and the need for language and literacy professionals to engage in transdisciplinary practice in order to develop more effective supports for those experiencing post traumatic stress Looking ahead the volume discusses recommendations for curriculum content clinical practice and changes to policy toward ensuring all people with post traumatic stress are able to fully participate in daily life This book will be of interest to students and scholars in speech language sciences social work occupational therapy and clinical psychology as well as clinicians and educators in these areas

COVID-19 and Speech-Language Pathology Louise Cummings,2022-09-15 This collection is the first of its kind to examine the impact of the COVID 19 pandemic on the caseloads and clinical practice of speech language pathologists The volume synthesises existing data on the wide ranging effects of COVID 19 on the communication swallowing and language skills of individuals with COVID infection Featuring perspectives of scholars and practitioners from around the globe the book examines the ways in which clinicians have had to modify their working practices to prioritise patient and clinician safety including the significant increase in the use of telepractice during the pandemic The volume also reflects on changes in training and education which have seen educators in the field redesign their clinical practicum in order to best prepare students for professional practice in an age of COVID 19 and beyond as the field continues to grapple with the long term effects of the pandemic Offering a holistic treatment of the impact of COVID 19 on the work of speech language pathologists this book will be of interest to students researchers and clinicians working in the discipline Chapters 5 6 10 and 13 of this book are freely available as downloadable Open Access PDFs under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license available at <http://www.taylorfrancis.com>

Speech-Language Pathology and Palliative Care Laura Chahda,Bernice A. Mathisen,Lindsay B. Carey,2025-11-21 This collection provides a unique anthology using current evidence to consider the valuable role speech language pathologists play in palliative care across the lifespan The text empowers SLPs to work effectively and brings awareness to the role of SLPs within the medical nursing and allied health care community Written by SLPs for SLPs the book brings together experts in the field for a comprehensive exploration of speech language pathology in both paediatric and adult palliative care as well as palliative care in specific contexts including cases of adult dysphagia augmentative and alternative communication and communication partner training followed by four paediatric and adult palliative care case studies Final chapters reflect on issues of professional practice and future challenges and opportunities towards enabling SLPs to advocate for innovative services on behalf of their

patients This book will be of interest to scholars and practitioners in speech language pathology as well as allied health care professionals and health managers looking to understand the importance of SLP in helping patients achieve holistic health

Introducing Pragmatics Louise Cummings, 2023-06-23 This innovative comprehensive course textbook uses a clinical approach to explore pragmatics and pragmatic language skills Drawing on authentic real life examples of pragmatic breakdown in children and adults who have developmental or acquired language disorders Louise Cummings expertly guides readers to core insights and principles for understanding where context and meaning in human communication meet Key features include Chapter opening learning objectives and chapter closing summaries Authentic illustrative cases of atypical pragmatic interaction Exercises for checking knowledge and understanding Annotated recommended further reading A detailed glossary of important terms in pragmatics and clinical linguistics Aimed equally at undergraduate and graduate students who are coming to pragmatics for the first time the text discusses the key issues and concepts of this field in a fascinating new way With a common easy to follow structure across chapters and a wealth of pedagogical resources this is an essential text for students of linguistics and applied linguistics communication studies speech language pathology psychology and cognitive science and beyond
