Japan David John Lu, 1997 Covering the full spectrum of political economic diplomatic as well as cultural and intellectual history this classroom resource offers insight not only into the past but also into Japan's contemporary civilization This volume the second of two covers from the late 18th century up to 1995 **SPIN**, 1996-01 From the concert stage to the dressing room from the recording studio to the digital realm SPIN surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of SPIN pulsate with the energy of today's most innovative sounds Whether covering what's new or what's next SPIN is your monthly VIP pass to all that rocks **A Study on Suicide** Jianjun Li, 2019-11-26 This book systematically presents and classifies the latest advances in suicide research in contemporary China examines the status quo of suicides in China and analyzes the reasons for suicides among three high risk groups namely rural females teenagers and the elderly It reveals the deep seated influence of traditional Chinese values and socio cultural customs on suicide and puts forward a way to prevent suicide This book argues that high suicide rates stem from flaws in the social fabric Effectively reducing suicide rates and mitigating the damage done by suicide as a social disease is not only the responsibility of the state government but also that of social educational and medical professionals **Searching for Words: How Can We Tell Our Stories of Suicide**, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 It is all too easy to begin the introduction of a book examining suicide by citing statistics on rates of death around the world The vast majority of research seeks to make sense of suicide through quantitative analysis however this does not begin to do justice to the lived experience While we do not wish to suggest there is one right lens through which to study suicide we must recognize that there are myriad lenses through which to examine it There are many voices many stories that must be heeded and these stories are not just of the people who have themselves died by suicide but also those who are or have been suicidal and those who have been bereaved by suicide By examining cultural perspectives different media memory and place as well as loss this book aims to tell stories of suicide and working and living with the suicidal **Japan: A Documentary History** David J. org to learn more Japan is a nation saddled with centuries of accumulated stereotypes and loaded assumptions about suicide Many pronouncements have been made about those who have died by their own hand without careful attention to the words of the dead themselves Drawing upon far ranging creations by famous twentieth and twenty first century Japanese writers and little known amateurs alike such as death poems suicide notes memorials suicide maps and manuals works of literature photography film and manga Kirsten Cather interrogates how suicide is scripted and to what end Entering the orbit of suicidal writers and readers with care she shows that through close readings these works can reveal fundamental beliefs about suicide and just as crucially about acts of writing These are not scripts set in stone but graven images and words nonetheless that serve to mourn the dead straddling two impulses to put the dead to rest and to keep them alive forever These words reach out to us to initiate a dialogue with the dead one that can reveal why it matters to write into and from the void
