GUIDED READING

The course of the Civil War

The Civil War, spanning from 1861 to 1865, was a tumultuous period that dramatically altered the course of American history. It began when the Confederate States declared their secession from the Union in April 1861, just a few months after seven Southern states declared their secession from the Union.

The early years of the war saw several significant battles, including the First Battle of Bull Run, which was a Confederate victory. However, the war's true nature was revealed at the Battle of Gettysburg, where the Union's victory was a turning point. The war ended with the Union's victory at Appomattox in April 1865.

By 1865, the war had ended, and the Union was reunited. The Reconstruction era followed, during which the federal government sought to rebuild the South and ensure civil rights for all Americans.
