The Cultural Contradictions Of Capitalism

Daniel Bell,1996-10-18 With a new afterword by the author this classic analysis of Western liberal capitalist society contends that capitalism and the culture it creates harbors the seeds of its own downfall by creating a need among successful people for personal gratification a need that corrodes the work ethic that led to their success in the first place With the end of the Cold War and the emergence of a new world order this provocative manifesto is more relevant than ever

Intensive Mothering: The Cultural Contradictions of Modern Motherhood Linda Rose Ennis, 2014-12-01 To celebrate the twentieth anniversary of Sharon Hays landmark book The Cultural Contradictions of Motherhood this collection will revisit Hays concept of intensive mothering as a continuing yet controversial representation of modern motherhood In Hays original work she spoke of intensive mothering as primarily being conducted by mothers centered on children s needs with methods informed by experts which are labourintensive and costly simply because children are entitled to this maternal investment While respecting the important need for connection between mother and baby that is prevalent in the teachings of Attachment Theory this collection raises into question whether an over investment of mothers in their children s lives is as effective a mode of parenting as being conveyed by representations of modern motherhood In a world where independence is encouraged why are we still engaging in intensive motherhood

The Cultural Contradictions of Motherhood Sharon Hays, 1996-01-01 Working mothers today confront not only conflicting demands on their time and energy but also conflicting ideas about how they are to behave they must be nurturing and unselfish while engaged in child rearing but competitive and ambitious at work As more and more women enter the workplace it would seem reasonable for society to make mothering a simpler and more efficient task Instead Sharon Hays points out in this original and provocative book an ideology of intensive mothering has developed that only exacerbates the tensions working mothers face Drawing on ideas about mothering since the Middle Ages on contemporary childrearing manuals and on in depth interviews with mothers from a range of social classes Hays traces the evolution of the ideology of intensive mothering an ideology that holds the individual mother primarily responsible for child rearing and dictates that the process is to be child centered expert guided

emotionally absorbing labor intensive and financially expensive Hays argues that these ideas about appropriate mothering stem from a fundamental ambivalence about a system based solely on the competitive pursuit of individual interests In attempting to deal with our deep uneasiness about self interest we have imposed unrealistic and unremunerated obligations and commitments on mothering making it into an opposing force a primary field on which this cultural ambivalence is played out

Headstrong and Unorthodox Pioneers for a Critical Theory of Consumption Michael-Burkhard Piorkowsky, Karl Kollmann, 2023-08-28 This volume offers contributions on the fundamentals of current consumption theory and consumption research which have developed almost entirely from originally unorthodox approaches against traditional micro and macroeconomic theory The inspiration came mainly from social economic behavioural research and ecological economics But the reception is very patchy and the history is largely forgotten With reference to the work of earlier authors new arguments are offered to the current discussion about delimitations and paradoxes in consumption and the still narrowly understood consumer role It is as much about rework in sharpening the understanding of consumption and consumers in their lifeworlds as it is about indications of fruitfulness for the analysis of open questions It is about arguments for a paradigmatic reorientation of consumer research and policy The contributions address in particular ambivalences options and future modes in consumption in the search for individual satisfaction and ecological sustainability This book is a translation of an original German edition The translation was done with the help of artificial intelligence machine translation by the service DeepL com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation

The Cultural Contradictions of Anti-Capitalism Daniel Fletcher, 2017-08-23 Does contemporary anti capitalism tend towards as Slavoj i ek believes nihilism or does it tend towards as Michael Hardt and Antonio Negri believe true egalitarian freedom Within The Cultural Contradictions of Anti Capitalism

Fletcher presents an answer that manages to tend towards both simultaneously In entering into contemporary debates on radicalism this innovative volume proposes a revised conception of Hardt and Negri s philosophy of emancipatory desire Indeed Fletcher reassesses Hardt and Negri s history of Western radicalism and challenges their notion of an alter modernity break from bourgeois modernity In addition to this this title proposes the idea of Western anti capitalism as a spirit within a spirit exploring how anti capitalist movements in the West pose a genuine challenge to the capitalist order while remaining dependent on liberalist assumptions about the emancipatory individual Inspired by post structuralism and rejecting both revolutionary transcendence and notions of an underlying desiring purity *The Cultural Contradictions of Anti Capitalism* offers new insight into how liberal capitalist society persistently produces its own forms of resistance against itself This book will appeal to graduate and postgraduate students interested in fields such as Sociology Politics International Relations Cultural Studies History and Philosophy *The City in American Cinema* Johan Andersson, Lawrence Webb, 2019-06-27 How has American cinema engaged with the rapid transformation of cities and urban culture since the 1960s And what role have films and film industries played in shaping and mediating the postindustrial city This collection argues that cinema and cities have become increasingly intertwined in the era of neoliberalism urban branding and accelerated gentrification Examining a wide range of films from Hollywood blockbusters to indie cinema it considers the complex evolving relationship between moving image cultures and the spaces policies and politics of US cities from New York Los Angeles and Boston to Detroit Oakland and Baltimore The contributors address questions of narrative genre and style alongside the urban contexts of production exhibition and reception discussing films including *The Friends of Eddie Coyle* 1973 *Cruising* 1980 *Desperately Seeking Susan* 1985 *King of New York* 1990 *Inception* 2010 *Frances Ha* 2012 *Fruitvale Station* 2013 *Only Lovers Left Alive* 2013 and *Doctor Strange* 2016 *The Cambridge Companion to Weber* Stephen Turner, 2000-04-13 Max Weber is indubitably one of the very greatest figures in the history of the social sciences the source of seminal concepts like the Protestant Ethic charisma and the idea of historical processes of rationalization But like his great forebears Adam Smith and Karl Marx Weber s work always resists easy categorisation Prominent as a founding father of sociology Weber has been a major influence in the study of ancient history religion economics law and more recently cultural studies This Cambridge Companion provides an authoritative introduction to the major facets of his thought including several like industrial psychology which have hitherto been neglected A distinguished international team of contributors examines some of the major controversies that have erupted over Weber s specialized work and shows how the issues have developed since he wrote The articles demonstrate Weber s impact on a variety of research areas **The Cultural Career of Coolness** Ulla Haselstein, Irmela Hijiya-Kirschner, Catrin Gersdorf, Elena Giannoulis, 2013-10-10 Cool is a word of American English that has been integrated into the vocabulary of numerous languages around the globe Today it is a term most often used in advertising trendy commodities or more generally in promoting urban lifestyles in our postmodern age But what is the

history of the term cool When has coolness come to be associated with certain modes of contemporary self fashioning On what grounds do certain nations claim a privilege to be recognized as cool These are some of the questions that served as a starting point for a comparative cultural inquiry which brought together specialists from American Studies and Japanese Studies but also from Classics Philosophy and Sociology The conceptual grid of the volume can be described as follows 1 Coolness is a metaphorical term for affect control It is tied in with cultural discourses on the emotions and the norms of their public display and with gendered cultural practices of subjectivity 2 In the course of the cultural transformations of modernity the term acquired new importance as a concept referring to practices of individual ethnic and national difference 3 Depending on cultural context coolness is defined in terms of aesthetic detachment and self irony of withdrawal dissidence and even latent rebellion 4 Coolness often carries undertones of ambivalence The situational adequacy of cool behavior becomes an issue for contending ethical and aesthetic discourses since an ethical ideal of self control and a strategy of performing self control are inextricably intertwined 5 In literature and film coolness as a character trait is portrayed as a personal strength as a lack of emotion as an effect of trauma as a mask for suffering or rage as precious behavior or as savvy This wide spectrum is significant artistic productions offer valid insights into contradictions of cultural discourses on affect control 6 American and Japanese cultural productions show that twentieth century notions of coolness hybridize different cultural traditions of affect control
