The Crisis of Criticism Maurice Berger, 1998 This collection of essays on the nature of art critics authority and responsibilities addresses questions such as whether some art is beyond criticism and how critics can bridge the gap between the art community and the general public

The Crisis in Criticism William E. Cain, 1984 This book is a statement of my views on a number of problems in literary theory and contemporary criticism But it is also as any theoretical study must be a progress report a record of inquiry that has not yet concluded In a sense a book on theory cannot really end At a certain point work on it ceases even though one continues to think critically and skeptically about the problems and the solutions that the book contains Preface p xi

The Ethics of Criticism Tobin Siebers, 2018-03-15 Tobin Siebers asserts that literary criticism is essentially a form of ethics The Ethics of Criticism investigates the moral character of contemporary literary theory assessing a wide range of theoretical approaches in terms of both the ethical presuppositions underlying the critical claims and the attitudes fostered by the approaches Building on analyses of the moral legacies of Plato Kant Nietzsche and Freud Siebers identifies the various fronts on which the concerns of critical theory impinge on those of ethics

Grounds of Literary Criticism Suresh Raval, 1998 This sophisticated and wide ranging look at literary criticism addresses the major theorists of today and proposes a constructive approach to challenging critical debates Disclosing conflict as the inevitable outcome of historical change Suresh Raval refuses the stark either/or choice between the foundationalist stance which seeks to find the right answers and the relativist position which denies the possibility of identifying right and wrong Raval explores the question of conflict in literary criticism and theory by analyzing how different theories have treated key issues not to resolve these problems but to show why they resist decisive solution

Film Criticism in the Digital Age Mattias Frey, Cecilia Sayad, 2015-04-20 Over the past decade as digital media has expanded and print outlets have declined pundits have bemoaned a crisis of criticism and mourned the death of the critic Now that well paying jobs in film criticism have largely evaporated while blogs message boards and social media have given new meaning to the saying that everyone's a critic urgent questions have emerged about the status and purpose of film

criticism in the twenty first century In *Film Criticism in the Digital Age* ten scholars from across the globe come together to consider whether we are witnessing the extinction of serious film criticism or seeing the start of its rebirth in a new form Drawing from a wide variety of case studies and methodological perspectives the book's contributors find many signs of the film critic's declining clout but they also locate surprising examples of how critics whether moonlighting bloggers or salaried writers have been able to intervene in current popular discourse about arts and culture In addition to collecting a plethora of scholarly perspectives *Film Criticism in the Digital Age* includes statements from key bloggers and print critics like Armond White and Nick James Neither an uncritical celebration of digital culture nor a jeremiad against it this anthology offers a comprehensive look at the challenges and possibilities that the Internet brings to the evaluation promotion and explanation of artistic works

Avant-garde Performance & the Limits of Criticism Mike Sell, 2008 Explores the dynamic interactions of performance politics and literary criticism in three U S countercultures in the 1950s and 60s

Film Criticism as a Cultural Institution Huw Walmsley-Evans, 2018-03-28 At the beginning of the 21st century film criticism was described as in crisis The decline of print journalism a series of lay offs of prominent critics and the rise of amateur reviewing online spurred a conversation about the decline even death of film criticism This discourse flourished in part because film criticism has been little examined in scholarship to date This book takes a deeper look at film criticism by focusing on its institutional contours This is achieved through a combination of archival research and interviews with prominent film critics and stakeholders including Adrian Martin LOLA Stephanie Zacharek Time Peter Bart Variety and Andrew Sarris The Village Voice *Film Criticism as a Cultural Institution* first examines the contemporary crisis conversation surrounding film criticism comparing this to historical precedents It then provides what today's crisis conversation does not an account of film criticism's institutional formations Using primarily U S and Australian case studies based on interviews observation and archival research as well as accounts from other national schools the book maps contemporary film criticism Across various sites such as publications or online spaces and organisations such as film critics circles it elucidates film criticism's institutional practices tasks compartments and personae Looking at the history of conversations about film criticism shows us that crisis has always been a leitmotif While acknowledging the considerable changes and challenges that film criticism faces today this book situates these within an historical context and proposes an institutional framework that allows us to move beyond crisis discourse Looking at film criticism in this way allows us to see that the very question of what counts as film criticism is continually contested within an institutional ecology made up of distinctive critical compartments addressed to distinctive audiences

9.5 Theses on Art and Class Ben Davis, 2013 In *9 5 Theses on Art and Class* Ben Davis takes on a broad array of contemporary art's most persistent debates How does creative labor fit into the economy Is art merging with fashion and entertainment What can we expect from political art Davis argues that returning class to the center of discussion can play a vital role in tackling the challenges that visual art faces today including the biggest challenge of all how to maintain faith in

art itself in a dysfunctional world **The Cambridge History of Literary Criticism: Volume 5, Romanticism** George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction Reviewing Political Criticism Elisabeth K. Chaves, 2016-04-08 Reviewing Political Criticism examines the rise of the review form of journal publication from the early eighteenth to the early twenty first centuries The review belongs to a long tradition of written political criticism that first advised then revised and with the increased confidence afforded to civil society by the rise of market capitalism subsequently challenged and even transformed the state's view on what and how it governed Chaves investigates the crucial nexus of intellectual debate with political judgment over this time and highlights the review's central role in upholding this connection Focusing upon critical moments that required the exercise of political judgment the book explains this journal form as a means of political practice one that essentially re-views the state's view of how society should be ordered To understand critical activity one must reflect on where this activity takes place on the institutions of criticism that sustain it Referred to by some as the natural habitat of intellectuals journals as the institutionalized sites of theoretical discourse are often overlooked This groundbreaking book offers a concentrated critique of the review form of journal publication as a medium for political thought and action as a decisive site for political judgment by the state's conservers and critics *Film Criticism and Digital Cultures* Andrew McWhirter, 2016-08-26 The critic is dead Everyone's a critic These statements reflect some of the perceptions of film criticism in a time when an opinion can be published in seconds yet reach an audience of millions This book examines the reality of contemporary film criticism by talking to leading practitioners in the UK and North America such as Nick James Mark Cousins Jonathan Rosenbaum and Richard Porton and by covering a broad spectrum of influential publications including Sight Sound The Guardian Cineaste indieWIRE and Variety Forming a major new contribution to an emerging field of study these enquiries survey the impact of larger cultural economic and technological processes facing society media and journalism Historical perspectives on criticism from ancient times and current debates in journalism and digital media are used to unravel questions such as what is the relationship between crisis and criticism In what way does the web change the functions and habits of practitioners What influences do film industries have on the critical act And how engaged are practitioners with converged and creative film criticism such as the video essay In the face of transformative digital idealism empirical findings here redress the balance and argue the case for evolution rather than revolution taking place within film criticism *The IMF and its Critics* David Vines, Christopher L. Gilbert, 2004-02-26 The IMF is the first economic institution in line to protect countries from the effects of financial crises and to insulate the world economy from possible systemic risk However many argue that the IMF is insufficiently equipped to do this job while others argue almost the opposite the IMF's well intentioned actions induce other countries to take risks which increase their exposure from both universities and the multilateral agencies combines rigorous economic analysis with insider perspectives on key policy debates It analyses the Asian and Argentine financial crises of the

late 1990s issues of policy ownership the more general quest for financial stability and governance of the IMF It is an essential reference for anyone interested in the role of international financial institutions in our globalised economy *The Imperfect City: On Architectural Judgment* Samir Younes, 2016-03-03 If architectural judgment were a city a city of ideas and forms then it is a very imperfect city When architects judge the success or failure of a building the range of ways and criteria which can be used for this evaluation causes many contentious and discordant arguments Proposing that the increase in number and intensity of such arguments threatens to destabilize the very grounds upon which judgment is supposed to rest this book examines architectural judgment in its historical cultural political and psychological dimensions and their convergence on that most expressive part of architecture namely architectural character It stresses the value of reasoned judgment in justifying architectural form a judgment based on three sets of criteria those criteria that are external to architecture those that are internal to architecture and those that pertain to the psychology of the architect as image maker External criteria include philosophies of history or theories of modernity internal criteria include architectural character and architectural composition while the psychological criteria pertain to mimetic rivalry or rivaling desires for the same architectural forms Yet although architectural conflicts can adversely influence judgment they can at the same time contribute to the advancement of architectural culture *The Kierkegaardian Author* Joseph Westfall, 2009-02-26 This study engages in a detailed examination of Kierkegaard's works of literary and dramatic criticism including those works directed at interpreting Kierkegaard's own authorship with a specific concern for both what Kierkegaard and Kierkegaard'sonyms and pseudonyms write about the nature and practice of authorship as well as how the Kierkegaardian authors practice authorship themselves Moving through five chapters each devoted to one or more works of Kierkegaard's criticism the study develops a new approach to reading Kierkegaard a new Kierkegaardian hermeneutic that begins always with the character of the author This new approach avoids the challenges of critics of biographical criticism such as Roland Barthes Michel Foucault and Jacques Derrida by positing the author always as a work of fiction him or herself the creation of an unknown and ever anonymous author of the author *The Blackwell Dictionary of Modern Social Thought* William Outhwaite, 2003-01-02 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text **The World, the Text, and the Critic** Edward W.
