Intolerable Cruelty Margaret Kuo,2012-11-15 At the outset of the Nanjing decade 1928 1937 a small group of Chinese legal elites worked to codify the terms that would bring the institutions of marriage and family into the modern world Their deliberations produced the Republican Civil Code of 1929 1930 the first Chinese law code endowed with the principle of individual rights and gender equality In the decades that followed hundreds of thousands of women and men adopted the new marriage laws and brought myriad domestic grievances before the courts Intolerable Cruelty thoughtfully explores key issues in modern Chinese history including state society relations social transformation and gender relations in the context of the Republican Chinese experiment with liberal modernity Investigating both the codification process and the subsequent implementation of the Code Margaret Kuo deftly challenges arguments that discount Republican law as an elite pursuit that failed to exert much influence beyond modernized urban households She reconsiders the dominant narratives of the 1930s and 1940s as dark years for Chinese women Instead she convincingly recasts the history of these years from the perspective of women who actively and successfully engaged the law to improve their lives

Speculative Biography Donna Lee Brien,Kiera Lindsey,2021-09-30 While speculation has always been crucial to biography it has often been neglected denied or misunderstood This edited collection brings together a group of international biographers to discuss how and why each uses speculation in their work whether this is to conceptualise a project in its early stages work with scanty or deliberately deceptive sources or address issues associated with shy or stubborn subjects After defining the role of speculation in biography the volume offers a series of work in progress case studies that discuss the challenges biographers encounter and address in their work In addition to defining the speculative spectrum within the biographical endeavour the collection offers a lexicon of new terms to describe different types of biographical speculation and more deeply engage with the dynamic interplay between research subjectivity and that which Natalie Zemon Davis dubbed informed imagination By mapping the field of speculative biography the collection demonstrates that speculation is not only innate to biographical practice but also key to rendering the complex mystery of biographical subjects be they human animal or even metaphysical

Key Concepts in Practice Paul R. Katz,Stefania Travagnin,2019-05-20 In recent years the study of

modern Chinese religions has developed into a highly innovative yet challenging field. One of the main reasons for this involves an ongoing and largely unresolved debate regarding what methods and theories are appropriate for analyzing the wide range of beliefs and practices we encounter. This series of three volumes is based on the conviction that in this critical period of research on modern Chinese religions it is time for scholars to review the development of our field, reconsider its present state of theories and analytical models, and open a new chapter in the understanding of methodologies we employ. Our research is grounded on the need to re-evaluate concepts and practices that inform both the religious sphere and contemporary scholarship, including endogenous Chinese concepts and exogenous ideas from the West and Japan that have been foundational in shaping our knowledge of the Chinese religious landscape. In this third volume of our series we examine a variety of key concepts through their praxis in modern Chinese lived religions.

Women and Gender in Twentieth-Century China Paul J. Bailey, 2012-08-29 Paul J. Bailey provides the first analytical study in English of Chinese women's experiences during China's turbulent twentieth century. Incorporating the very latest specialized research and drawing upon Chinese cinema and autobiographical memoirs, this fascinating narrative account explores the impact of political, social, and cultural change on women's lives and how Chinese women responded to such developments. Charts the evolution of gender discourses during this period. Illuminates both change and continuity in gender discourse and practice. Approachable and authoritative, this is an essential overview for students, teachers, and scholars of gender history and anyone with an interest in modern Chinese history.

Scheherazade's Sisters Marilyn Jurich, 1998-08-20 Based on the author's discovery of a new folktale type, the female trickster, Jurich's book identifies and celebrates those female protagonists in folktales who use trickery to save themselves and others, to find new directions for their lives, and to declare their individual autonomies, especially in societies that diminish and oppress women. Through creative strategies depending on verbal facility, psychological acuity, and diplomatic know-how, these women tricksters, better named trickstars, uncover the absurdity, hypocrisy, and corruption in the larger patriarchal society. Through the trickstar's efforts, the system is circumvented or foiled, often enlightened, and usually improved. This multicultural comparative study reveals universal human traits as well as gender differences between female and male tricksters and realizes the values and attitudes which shape the trickstar's character and behavior. Trickstars also appear outside of the oral folktale tradition; the author discusses their roles in contemporary feminist revisionist tales as well as in mythology, biblical narratives, Shakespearean comedy, novels, plays, and opera. How the female trickster differs from her male counterpart is for the first time in folklore studies illustrated through a comparison of their functions in the narrative scheme of the tale. These functions include the diverting or amusing role, the morally ambiguous or reprehensible role, the role of the manipulator or strategist, and the role of the transformer or culture bringer who reforms and improves the nature of her society. Jurich delineates the specific types of tricksters who perform these functions, suggests how trickstar tales variously affect listeners and readers, and shows how particular types of trickstar

characters contribute to the intent of the tale Feminist views of the protagonists are analyzed as well as contemporary revisionist tales which seek to reverse negative female images and to present independent women characters who can and do make positive contributions to society For the first time in folklore studies both female and male tricksters are defined and differentiated their functions are illustrated through analyzing narrative schemes and the term trickstar invented by the author is used to define and describe a female trickster *Ideas and Art in Asian Civilizations* Kenneth R.

Lin,2013-06-29 Our purpose in assembling the papers in this collection is to introduce readers to studies of normal and abnormal behavior in Chinese culture We want to offer a sense of what psychiatrists and social scientists are doing to advance our understanding of this subject including what findings are being made what questions researched what conundrums worried over Since our fund of knowledge is obviously incomplete we want our readers to be aware of the limits to what we know and to our acquisition of new knowledge Although the subject is too vast and uncharted to support a comprehensive synthesis in a few areas e g psychiatric epidemiology enough is known for us to be able to present major reviews The chapters themselves cover a variety of themes that we regard as both intrinsically interesting and deserving of more systematic evaluation Many of the issues they address we believe to be valid concerns for comparative cross cultural studies No attempt is made to artificially integrate these chapters since the editors wish to highlight their distinctive interpretive frameworks as evidence of the rich variety of approaches that scholars take to this subject We see this volume as a modest and self consciously limited exploration Here are some accounts and interpretations but by no means all of normal and abnormal behavior in the context of Chinese culture that we believe fashion a more discriminating understanding of at least a few important aspects of that subject **Marriage, Law and Gender in Revolutionary China** Xiaoping Cong,2016-08-22

relations in the turbulent period from 1940 to 1960 *From Policemen to Revolutionaries: A Sikh Diaspora in Global Shanghai, 1885-1945* Yin Cao, 2017-10-10 *From Policemen to Revolutionaries* uncovers the less known story of Sikh emigrants in Shanghai in the late nineteenth and early twentieth centuries Yin Cao argues that the cross border circulation of personnel and knowledge across the British colonial and the Sikh diasporic networks facilitated the formation of the Sikh community in Shanghai eventually making this Chinese city one of the overseas hubs of the Indian nationalist struggle By adopting a translocal approach this study elaborates on how the flow of Sikh emigrants largely regarded as subalterns initially strengthened but eventually unhinged British colonial rule in East and Southeast Asia *Companion to Historiography* Michael Bentley, 2006-02-27 *The Companion to Historiography* is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed the creation of historical perspectives Contributed by a distinguished panel of academics each essay conveys in direct jargon free language a genuinely international wide angled view of the ideas traditions and institutions that lie behind the contemporary urgency of world history *Sources in Chinese History* David Atwill, Yurong Atwill, 2021-03-03 *Sources in Chinese History* now in its second edition has been updated to include re translations of over a third of the documents It also incorporates nearly 40 new sources that work to familiarize readers with the key events personages and themes of modern China Organized thematically the volume examines China's complex history from the rise of the Qing dynasty in the mid seventeenth century through the formation of the People's Republic of China up to the present Each chapter begins with an annotated visual source followed by a chapter introduction and analysis of textual sources allowing students to explore different types of sources and topics *Sources in Chinese History* contextualizes the issues trends and challenges of each particular period Special attention has been made to incorporate a variety of viewpoints which challenge standard accounts Non traditional documents such as movie dialogues are also included which aim to encourage students to reconsider historical events and trends in Chinese history This volume includes a variety of sources such as maps posters film scripts memorials and political cartoons and advertisements that make this book the perfect introductory aid for students of Chinese history politics and culture as well as Chinese studies after 1600 *Artful History* Aaron Sachs, John Demos, 2020-02-18 A collection of memorable stirring and eloquent historical essays designed to help any historian write more artfully Is there any reason serious historical scholarship cannot receive literary expression Even the most committed empiricists and postmodernists might achieve better results by thinking of writing as a craft rather than a means of packaging research This book gathers some of the most compelling efforts to make history writing eloquent stirring and memorable demonstrating that even the most rigorous scholarship can take on a wide range of creative forms With selections from Jonathan Spence Simon Schama Saidiya Hartman Wendy Warren Jill Lepore Louis Masur Jane Kamensky and John Demos among others

Stalin and Mao Lucien Bianco, 2018-03-15 China's ascent to the ranks of the world's second largest economic power has

given its revolution a better image than that of its Russian counterpart Yet the two have a great deal in common Indeed the Chinese revolution was a carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third world country Yet instead of correcting that model Mao decided to go further and faster in the same direction The aftershock of an earthquake may be weaker but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union It was conceived with an idealistic end but failed to take all the possibilities into account China's development only took off after and thanks to Mao's death once the country turned its back on the revolution Lucien Bianco's original comparative study highlights the similarities the all powerful bureaucracy the over exploitation of the peasantry which triggered two of the worst famines of the 20th century control over writers and artists repression and labor camps The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin and he quotes the observation by a Chinese historian that If at all possible it is best to avoid revolutions altogether
