**Hitmen for Hire** Mark Shaw, 2017-07-10 *Hitmen for Hire* takes the reader on a journey like no other navigating a world of paid hitmen informers rogue policemen criminal taxi bosses gang leaders and crooked politicians and businessmen Criminologist Mark Shaw examines a society in which contract killings have become commonplace looking at who arranges hits where to find a hitman and even what it is like to operate as a hitman or woman Since 1994 South Africa has seen a worrying increase in the commercialisation of murder and has been rocked by several high profile contract killings Drawing on his research of over a thousand incidents of hired assassinations from 2000 to 2016 Shaw reveals how

these murders are used to exert a mafia type control over the country's legal and illegal economic activity. Contracted assassinations and the organised criminal activity behind them contain sinister linkages with the underworld most visibly in relation to disputes over tenders and access to government resources. State security actors increasingly mediate relations between the under and upper worlds with serious implications for the long term success of the post apartheid democratic project.

*Strong NGOs and Weak States* Milli Lake, 2018-05-31 Over the past decade the Democratic Republic of the Congo, DR Congo and South Africa have attracted global attention for high rates of sexual and gender based violence. Why is it that courts in eastern DR Congo prioritize gender crimes despite considerable logistical challenges while courts in South Africa, home to a far stronger legal infrastructure and human rights record, have struggled to provide justice to victims of similar crimes? Lake shows that state fragility in DR Congo has created openings for human rights nongovernmental organizations (NGOs) to influence legal processes in ways that have proved impossible in countries like South Africa where the state is stronger. Yet exploiting opportunities presented by state fragility to pursue narrow human rights goals invites a host of new challenges. *Strong NGOs and Weak States* documents the promises and pitfalls of human rights and rule of law advocacy undertaken by NGOs in strong and weak states alike.

*Corruption, Sustainable Development and Security Challenges in Africa* Kempe Ronald Hope, Sr., 2023-09-07 This book sheds light on Africa's development performance and dynamics arising from the interface between corruption and sustainable development on the one hand and the challenges that poses for peace, security and stability. Corruption also contributes to the spread of terrorism and violent extremism. Pervasive corruption networks often include politicians, civil servants working at all levels of state institutions, representatives of the private sector and members of crime syndicates. The consequences of corruption are detrimental in many aspects such as undermining governments' ability to serve public interests and eroding public trust in democratic processes. Presenting empirical evidence, the book explains why corruption and the looting of staggering amounts of national assets undermine the achievement of the Sustainable Development Goals (SDGs) and has a negative impact on peace, stability, security, the rule of law, gender equality, the environment and human rights. This makes the book a must read for students, researchers and scholars of political science, international relations and economics in general as well as African studies, development studies and security sector studies in particular, covering issues and themes on corruption, governance, socio-economic, sustainable development, public administration and management, policing in an international context, police reform and security sector reform. It will also serve as a helpful resource for policy makers interested in a better understanding of the connection between corruption, sustainable development and security challenges in Sub-Saharan Africa.

*An African Criminal Court* Dominique Mystris, 2020-11-30 In *An African Criminal Court* Dominique Mystris explores the potential contribution of a regional criminal court to international criminal law and justice across the continent As set out in the Malabo Protocol the court's approach to international core crimes builds on from the current international system Yet the additional crimes and region centric approach reflect the continental concerns To fully realise the court's contribution the African Union's institutional objectives and approach to justice peace and security the author argues for the inclusion of the court within the African Peace and Security Architecture By adopting such a holistic understanding of the Malabo Protocol court within the AU structure a more accurate depiction of the potential of an African criminal court emerges

**Nigeria-South Africa Relations and Regional Hegemonic Competence** Oluwaseun Tella, 2018-11-27 This book examines the relations between Nigeria and South Africa and their implications for regional influence across the African continent With the largest and third largest economies in the region and a historical status as the major peacemakers on the continent it is often argued that Africa's fate is directly linked to the success or failure of these regional powers While there is widespread reference to each state's capabilities and regional influence in the extant literature little analysis is offered on relations between Nigeria and South Africa and their impact on regional governance and provision of public goods on the continent This book attempts to fill the gap by engaging issues such as the hegemonic competence of the states their credentials for a permanent seat at the UNSC their efforts towards regional integration and their efforts towards combating the dark side of globalization including climate change drug trafficking and xenophobia It also engages a gender perspective to these states relations as well as their experiences of transitional justice Providing an in depth comparative analysis of the two so called African powerhouses this volume will be of interest to policy makers academics and students interested in Nigeria and South Africa's foreign policy regional powerhood and the African peace security and development agenda

**Policing and Boundaries in a Violent Society** Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the

nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization

measures of state fragility measure fragility accurately Based on commonly used fragility measures South Africa SA is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that SA may be suffering from latent state fragility Based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of SA in ways undetected by commonly used measures of state fragility Using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make South Africa a latently fragile state Conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility Practically this study offers a number of concrete policy recommendations for how South Africa may address mounting levels of latent state fragility
