South African Police Service Vacancies For 2014:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994 as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

A Citizen's Guide to Crime Trends in South Africa Aine Kreigler, Mark Shaw, 2016-06-05 South Africans care a lot about crime. We think and worry about it, plan and insure against it, develop and share theories about it, read about it, and talk about it a lot. But how much do we really know? Crime statistics do not belong to the government, academics, specialists, or the press. They are ours; we experience and report crimes and have a right to access and understand their official record. It should not take any particular expertise to get a grasp on what we should make of the figures and graphs that the South African Police Service produces every year. A Citizen's Guide to Crime Trends in South Africa provides a basis on which to understand the statistics in a manner that is accessible to everyone. Each chapter challenges a set of oft-repeated assumptions about how bad crime is, where it occurs, and who its victims are. It also demonstrates how and why crime statistics need to be matched with other forms of research, including criminal justice data, in order to produce a fuller account of what we are faced with.

Police Work and Identity Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa. Drawing on rich original ethnographical data, it considers how officers make sense of their jobs and how they find meaning in their duties. It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo-liberalising regimes such as South Africa can be traced to the day-to-day experiences and ambitions of the average police officer. It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work. By focusing on police officers, this book positions the individual in primacy over the

organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street

African Immigrant Traders in Inner City Johannesburg

Inocent Moyo,2017-09-14 This book contests the negative portrayal of African immigrants as people who are not valuable members of South African society They are often perceived as a threat to South Africa and its patrimony accused of committing crime taking jobs and competing for resources with South African citizens Unique in its deployment of a deconstructionist theoretical and analytical framework this work argues that this is a simplistic portrayal of a complex reality Inocent Moyo lays bare not only the failings of an exclusivist narrative of belonging but also a complex social reality around migration and immigration politics belonging and exclusion in contemporary South Africa Over seven chapters he introduces new perspectives on the negative portrayal of African immigrants and argues that to sustain a negative view of them as the threatening other ignores complex people place space dynamics For these reasons the analytical empirical and theoretical value of the project is that it broadens the study of migration related contexts in a South African setting Academics students policy makers and activists focusing on the migration and immigration debate will find this book invaluable

Making Freedom

Anne-Maria Makhulu,2015-10-23 In Making Freedom Anne Maria Makhulu explores practices of squatting and illegal settlement on the outskirts of Cape Town during and immediately following the end of apartheid Apartheid s paradoxical policies of prohibiting migrant Africans who worked in Cape Town from living permanently within the city led some black families to seek safe haven on the city s perimeters Beginning in the 1970s families set up makeshift tents and shacks and built whole communities defying the state through what Makhulu calls a politics of presence In the simple act of building homes

squatters who Makhulu characterizes as urban militants actively engaged in a politics of the right to the city that became vital in the broader struggles for liberation Despite apartheid s end in 1994 Cape Town s settlements have expanded as new forms of dispossession associated with South African neoliberalism perpetuate relations of spatial exclusion poverty and racism As Makhulu demonstrates the efforts of black Capetonians to establish claims to a place in the city not only decisively reshaped Cape Town s geography but changed the course of history

Security, Governance, and State Fragility in South

Africa Edward L. Mienie,2020-03-06 Do existing measures of state fragility measure fragility accurately Based on commonly used fragility measures South Africa SA is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that SA may be suffering from latent state fragility Based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the

security system especially with respect to the police system and mounting economic challenges may be undermining the stability of SA in ways undetected by commonly used measures of state fragility Using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make South Africa a latently fragile state Conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility Practically this study offers a number of concrete policy recommendations for how South Africa may address mounting levels of latent state fragility

Scales of Memory Justin Collings, 2021-01-05 Since the Second World War constitutional justice has spread through much of the democratic world Often it has followed in the wake of national calamity and historical evil whether fascism or communism colonialism or apartheid Unsurprisingly the memory of such evils plays a prominent role in constitutional adjudication This book explores the relationship between constitutional interpretation and the memory of historical evil Specifically it examines how the constitutional courts of the United States Germany and South Africa have grappled respectively with the legacies of slavery Nazism and apartheid Most courts invoke historical evil through either the parenthetical or the redemptive mode of constitutional memory The parenthetical framework views the evil era as exceptional a baleful aberration from an otherwise noble and worthy constitutional tradition Parenthetical jurisprudence reaches beyond the evil era toward stable and enduring values It sees the constitutional response to evil as restorative rather than revolutionary a return to and reaffirmation of older traditions The redemptive mode by contrast is more aggressive Its aim is not to resume a venerable tradition but to reverse recent ills Its animating spirit is not restoration but antithesis Its aim is not continuity with deeper pasts but a redemptive future stemming from a stark complete and vivid rupture This book demonstrates how across the three jurisdictions the parenthetical mode has often accompanied formalist and originalist approaches to constitutional interpretation whereas the redemptive mode has accompanied realist and purposive approaches It also shows how within the three jurisdictions the parenthetical mode of memory has consistently predominated in American constitutional jurisprudence the redemptive mode in South African jurisprudence and a hybrid parenthetical redemptive mode in German constitutional jurisprudence The real world consequences of these trends have been stark and dramatic Memory matters especially in constitutional interpretation

Manufacturing Terrorism in Africa Mohamed

Natheem Hendricks,2020-07-03 This book uses Securitisation Theory to explore how Muslims have been constructed as a security issue in Africa after the 9 11 attacks in the United States These attacks became the rationale for the US s Global War on Terror GWOT The centrality of Africa as an arena to execute the GWOT is the focus of this book This book explores particularly how western centred security discourses around Muslims has permeated South African security discourse in the post apartheid period It claims that the popular press and the local think tank community were critical knowledge sites that imported rather than interrogated debates which have underpinned policy initiatives such as the GWOT Such theorisation seems contrary to the original architects of securitisation theory who maintain that issues become security concerns when institutional voices declare these as such However this book confirms that non institutional voices have securitised the African Muslims by equating them with terrorism This book illustrates that such securitisation reproduces partisan knowledge that promote Western interests **Global Dimensions of Public Administration and Governance** Jos
