The Oxford Handbook of Language and Prejudice Jane Setter, Sender Dovchin, Vijay A. Ramjattan, 2025-09-25 This volume explores and rearticulates the relationship between language and prejudice Language plays an important role in the conceptualization enactment and defence of prejudice at both the individual and institutional level Language and language users can also be the object of prejudice and language itself can with some conditions be thought of as a solution to prejudice The chapters in the volume examine how prejudice manifests itself how it is perceived and how it might be combatted Parts I III cover linguistic prejudices relating to gender and sexuality ableism and race and ethnicity while Parts IV VI explore social issues politics and religion and educational perspectives The final part looks at projects and initiatives to tackle linguistic prejudice in a range of contexts While recent work in the field has tended to inadvertently construct knowledge according to normative and Northern epistemologies this volume features contributions that also provide an understanding of linguistic prejudice from Global South perspectives
