United States, 2013 Shana Hertz Hattis, 2013-04-18 Crime in the United States contains findings from the Federal Bureau of Investigation FBI of the offenses known to law enforcement released annually from its Uniform Crime Reporting Program. Because the FBI no longer prints these findings, Bernan Press continues to provide this practical information in convenient book form. In this intricately detailed source, legal and law enforcement professionals, researchers, and those who are just curious will find violent and property crime statistics for the nation as a whole and for regions, states, counties, cities, towns, and even college and university campuses. Crime in the United States includes statistics for violent and property crimes, hate crimes, crime trends, victims by type, crimes cleared, those closed by arrest or other means, persons arrested, age, sex, and race, juvenile offenders, law enforcement personnel including the number of sworn officers killed or assaulted, characteristics of homicides including age, sex, and race of victims and offenders, victim/offender relationships, weapons used, and circumstances surrounding homicides. In addition to data, Crime in the United States also includes text and pertinent figures that explain the data in greater detail and supplies a visual perspective of these major offenses. Violent crimes include murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault. Property crimes include burglary, larceny, theft, motor vehicle theft, arson. Hate crimes include any crime motivated by bias against race, religion, sexual orientation, ethnicity, national origin, and/or disability. Data include the following: offense type, location, bias, motivation, victim type, number of individual victims, number of offenders, and the race of the offenders. Interesting facts found in Crime in the United States include: The rate of violent crime decreased 21.9 percent between 2002 and 2011. Robberies declined the most of any offense, falling 22.2 percent. The FBI estimated that 12,408,899 arrests were made in 2011. Of these arrests, 4.3 percent were for violent crimes. Law enforcement agencies reported 6,222 hate crime incidents involving 7,254 offenses in 2011. In 2011, slightly more hate crimes were committed on the basis of sexual orientation (1,293) than on a religion basis (1,233). Men accounted for 88.2 percent of all full-time sworn law enforcement officers in 2011. In 2011, the estimated number of forcible rapes was 83,425, the lowest figure in 22 years, decreased 2.5 percent from the 2010 estimate. The average dollar value of property taken during burglaries was \$2,185; during robberies, \$1,153; and during larceny/thefts, \$988.
