LEARNING ABOUT YOUR TOASTER

This toaster is equipped with many safety and convenience features to give you optimum performance.

- A. Extra wide slots allow toasting of homemade bread, bagels, English muffins and pastries.
- B. Dual self-adjusting bread guides automatically adjust to bread thickness.
- C. Bread carriage lever is pressed to begin toasting.
- D. Toast lift - Press up on bread carriage lever to lift toast out of the bread slots.
- E. Light/dark selector knob lets you select the toast darkness.
- F. Cancel button is pressed to stop the toasting process.
- G. Cool-Touch exterior.
- H. Pull-out, non-stick crumb tray. (Back of unit)

USING YOUR TOASTER

- Before use remove any stickers and wipe the body of your toaster with a damp cloth.
- Ensure that before plugging the toaster into the outlet, the bread carriage lever is in the resting position.
- Plug the cord into a 120/127 volt, 60 HZ AC outlet. Position toaster at least 3 inches away from wall or rear of counter.
- Let the first toasting process take place without inserting any bread to preheat the new elements and burn off any dust, which may have accumulated during storage. It is normal for this burnoff to create an odor. Your SUNBEAM® toaster is now ready for use.
- Select the desired level of darkness by turning the "1-7" light/dark knob on the front panel of the toaster to the right for darker toast and to the left for lighter toast. Your selection should vary based on the moisture content, thickness of bread or bagel, whether fresh or frozen and your darkness preference.
- Next, place bread in slot and press bread carriage lever downward until it locks. Carriage lever will not stay down if toaster is not plugged in. The self-adjusting bread guides will automatically center the bread for even browning.

Do not wrap the cord around the main body of appliance during or after use.
