The Rise of Victimhood Culture Bradley Campbell, Jason Manning, 2018-03-07 The Rise of Victimhood Culture offers a framework for understanding recent moral conflicts at U S universities which have bled into society at large These are not the familiar clashes between liberals and conservatives or the religious and the secular instead they are clashes between a new moral culture victimhood culture and a more traditional culture of dignity Even as students increasingly demand trigger warnings and safe spaces many young people are quick to police the words and deeds of others who in turn claim that political correctness has run amok Interestingly members of both camps often consider themselves victims of the other In tracking the rise of victimhood culture Bradley Campbell and Jason Manning help to decode an often dizzying cultural milieu from campus riots over conservative speakers and debates around free speech to the election of Donald Trump

Religious Freedom and Mass Conversion in India Laura Dudley Jenkins, 2019-05-31 Hinduism is the largest religion in India encompassing roughly 80 percent of the population while 14 percent of the population practices Islam and the remaining 6 percent adheres to other religions The right to freely profess practice and propagate religion in India s constitution is one of the most comprehensive articulations of the right to religious freedom Yet from the late colonial era to the present mass conversions to minority religions have

inflamed majority minority relations in India and complicated the exercise of this right In Religious Freedom and Mass Conversion in India Laura Dudley Jenkins examines three mass conversion movements in India among Christians in the 1930s Dalit Buddhists in the 1950s and Mizo Jews in the 2000s Critics of these movements claimed mass converts were victims of overzealous proselytizers promising material benefits but defenders insisted the converts were individuals choosing to convert for spiritual reasons Jenkins traces the origins of these opposing arguments to the 1930s and 1940s when emerging human rights frameworks and early social scientific studies of religion posited an ideal convert an individual making a purely spiritual choice However she observes that India s mass conversions did not adhere to this model and therefore sparked scrutiny of mass converts individual agency and spiritual sincerity Jenkins demonstrates that the preoccupation with converts agency and sincerity has resulted in significant challenges to religious freedom One is the proliferation of legislation limiting induced conversions Another is the restriction of affirmative action rights of low caste people who choose to practice Islam or Christianity Last incendiary rumors are intentionally spread of women being converted to Islam via seduction Religious Freedom and Mass Conversion in India illuminates the ways in which these tactics immobilize potential converts reinforce damaging assumptions about women lower castes and religious minorities and continue to restrict religious freedom in India today International Student Activism and the Politics of Higher Education
