Prosperity For All? Robert Cherry, William M., III Rodgers, 2000-08-17 With the nation enjoying a remarkable long and robust economic expansion African American employment has risen to an all time high Does this good news refute the notion of a permanently disadvantaged black underclass or has one type of disadvantage been replaced by another Some economists fear that many newly employed minority workers will remain stuck in low wage jobs barred from better paying high skill jobs by their lack of educational opportunities and entrenched racial discrimination Prosperity for All draws upon the research and insights of respected economists to address these important issues Prosperity for All reveals that while African Americans benefit in many ways from a strong job market serious problems remain Research presented in this book shows that the ratio of black to white unemployment has actually increased over recent expansions Even though African American men are currently less likely to leave the workforce the number of those who do not find work at all has grown substantially indicating that joblessness is now concentrated among the most alienated members of the population Other chapters offer striking evidence that racial inequality is still pervasive Among men black high school dropouts have more difficulty finding work than their Latino or white counterparts Likewise the glass ceiling that limits minority access to higher paying promotions persists even in a strong economy Prosperity for All ascribes black disadvantage in the labor force to employer discrimination particularly when there is strong competition for jobs As one study illustrates economic upswings do not appear to change racial preferences among employers who remain less willing to hire African Americans for more skilled low wage jobs Prosperity for All offers a timely investigation into the impact of strong labor markets on low skill African American workers with important insights into the issues engendered by the weakening of federal assistance job training and affirmative action programs The Journal of Plumbing, Heating, & Air Conditioning, 1961 *HVAC Controls and Control Systems* S.
