Hoffman,2007-12-18 Featured on the Commandant of the Marine Corps Reading List and the Chief of Naval Operations Naval Power Reading List The Marine Corps is known for its heroes and Lieutenant General Lewis B Puller has long been considered the greatest of them all His assignments and activities covered an extraordinary spectrum of warfare Puller mastered small unit guerrilla warfare as a lieutenant in Haiti in the 1920s and at the end of his career commanded a division in Korea In between he chased Sandino in Nicaragua and fought at Guadalcanal Cape Gloucester and Peleliu With his bulldog face barrel chest which earned him the nickname Chesty gruff voice and common touch Puller became and has remained the epitome of the Marine combat officer At times Puller's actions have been called into question at Peleliu for instance where against a heavily fortified position he lost more than half of his regiment And then there is the saga of his son who followed in Chesty's footsteps as a Marine officer only to suffer horrible wounds in Vietnam his book *Fortunate Son* won the Pulitzer Prize Jon Hoffman has been given special access to Puller's personal papers as well as his personnel record The result will unquestionably stand as the last word about Chesty Puller *Circle the Wagons!* Gregory F. Michno,Susan J. Michno,2008-10-17 It's a cinematic image as familiar as John Wayne's face a wagon train circling as a defensive maneuver against Indian attacks This book examines actual and fictional wagon train battles and compares them for realism It also describes how fledgling Hollywood portrayed the concept of westward migration but as the evolving industry became more accurate in historical detail how filmmakers then lost sight of the big picture *Devil's Bargains* Hal Rothman,1998 The West is popularly perceived as America's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America's land of opportunism From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry's darker side He tells how tourism evolved from Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time From major destinations like Las Vegas to

revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it represents a new form of colonialism for the region By depicting the nature of tourism in the American West through true stories of places and individuals that have felt its grasp Rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take Deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore
