During the course of the experiment, people identified and remembered words that they saw, as well as words that were related to the words they saw. For example, they saw the word "apple" and then the word "fruit". They also saw the word "fruit" and then the word "apple". The results showed that people were better at remembering words that they saw than words that they heard. This suggests that visual information is processed more quickly and accurately than auditory information.

There are some questions on Part 1a. Write questions to focus on a short passage, or write notes for read aloud on page 1 about carefully. Before each passage, and with some background information on English.com. There you will have the passage in Spanish now. After you have heard the passage for the first time, you will have the questions in English.com. The questions to write prepared in your test booklet. After you have heard the questions, you will have about thirty seconds before writing the answers. During that time, read the questions and the short suggested answers in your test booklet. Notice the short suggested answer on the length of the individual questions provided in the passage and write the answer in the space provided in your answer booklet. You should not read the questions under the suggested answers to help answer following the passage. This will allow you to give all your attention to the passage. All a right now. Good.
