Something Wiki Suzanne Sutherland,2014-12-19 2016 Young Author s Award Shortlisted CCBC s Best Books for Kids Teens Fall 2015 Commended Instead of writing in a diary twelve year old Jo Waller secretly edits Wikipedia entries to cope with the worst year of her life Jo Waller has three brainy friends two mostly harmless parents and one deep dark secret she edits Wikipedia for fun But when her twenty four year old brother moves back home with his pregnant girlfriend Jo is forced to reconcile the idealized version of her absent cool older brother with the reality of romantic relationships and the truth behind so many embarrassing health class videos With the young couple moving back into the family home there s barely enough room for anyone to move let alone have any privacy Throw in some major friendship turbulence a seriously unrequited crush and a mortifyingly bad haircut and it s looking like Jo will be lucky to make it out of the year alive When you re a pizza faced dork who uses Wikipedia as a diary and would rather wear ancient hand me downs than shop at the mall what s the upside Jo is about to find it in the most unlikely way

Notable American Women with Czechoslovak Roots

Miloslav Rechcigl Jr.,2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women this is not at all a reflection of the paucity of work done by these women as this publication demonstrates This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date Included are not only individuals born on the territory of former Czechoslovakia but also their descendants This project has been approached strictly geographically irrespective of the language or ethnicity Because of the lack of bibliographical information most of the monograph comprises biobibliographical information in which area a plethora of information exists As the reader will discover these women have been involved practically in every field of human endeavor in numbers that surprise On the whole they have been noted for their independent spirit and nonconforming role

Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education Miloslav Rechcigl Jr.,2021-11-02 As pointed out in my last two publications no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Whereas in the two mentioned monographs the emphasis has been on scholars and social and natural scientists and men and women in medicine applied sciences and engineering respectively the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters and in education With respect to women although most professional fields were closed to them through much of the nineteenth century the area of arts and letters was opened to them as noted earlier and as this compendium authenticates

Leveraging Wikipedia Merrilee Proffitt,2018-11-29 The vision statement of the Wikimedia Foundation states Imagine a world in which every single human being can freely share in the sum of all knowledge Libraries need not see Wikipedia as competition rather failing to leverage its omnipresence in the online world constitutes a missed opportunity As a senior program officer at OCLC Proffitt has encouraged collaboration between Wikipedia and cultural heritage institutions leading to increased visibility and user engagement at participating organizations Here she brings onboard a raft of contributors from the worlds of academia archives libraries and members of the volunteer Wikipedia community who together point towards connecting these various communities of knowledge This book will inspire libraries to get involved in the Wikipedia community through programs and activities such as hosting editathons contributing content and helping to bridge important gaps in Wikipedia ensuring that library content is connected through the world s biggest encyclopedia working with the Wikipedia education community andengaging with Wikipedians as allies in a quest to expand access to knowledge Speaking directly to librarians this book shows how libraries can partner with Wikipedia to improve content quality while simultaneously ensuring that library services and collections are more visible on the open web

Stories From My Career Lynne Gross,2014-02-20 Stories From My Career is a compilation of 50 illustrated stories about the author s career as a college professor and media practitioner Her career began in the 1960s when very few women were employed in either area and spanned six decades until her retirement The initial stories take place in Pittsburgh where

she grew up and Chicago where she went to college but most of the stories are centered in the Los Angeles area A fair number also take place in other countries where she taught and consulted The stories encompass topics such as combining career and family the evolution of electronic technology the civil rights movement maternity leave practices television production techniques the Academy of Television Arts Sciences beginnings of cable TV teaching challenges media functions in developing nations and career advice Global Conversations in Literacy Research Peggy Albers,2017-11-22 In this volume renowned literacy and language education scholars who have shaped policy and practice aimed toward social justice and equity address current intellectual and practical issues in the teaching of literacy in classrooms and educational environments across diverse and international settings Drawn from talks that were presented live and hosted by Global Conversations in Literacy Research GCLR an online open access critical literacy project this book provides access in edited written form to these scholars critically and historically situated talks Bringing together talks on diverse topics including digital and media literacy video games critical literacy and ESOL Albers preserves the scholars critical discourses to engage readers in the conversation Offering a broad and expansive understanding of what literacy has to offer for scholars teachers and students this book demonstrates the importance of positioning literacy as a social practice and brings critical literacy to a global audience **Another 1000 Famous Horses** FJH Glover,2022-11-13 This 2nd book is a continuation of the 1st book The index at the back of the book is brilliant The contents list at the front of the book is in alphabetical order and is a list of the horses names gives paragraph numbers Whereas the Index gives the Rider Owner in alphanumeric order and gives paragraph numbers So if you do not know the name of a persons horse you would look up the person in the Index and it would indicate the paragraph numbers to find the answer For instance Steptoe and Son would be under S in the Index and this would lead you to Hercules the strong man from Greek Mythology Or Toy Story 2 would lead you to Bullseye Books 3 and 4 are in the process of compiling it s a Never Ending Story *American Learned Men and Women with Czechoslovak Roots* Mila Rechcigl,2020-11-18 Apart from a few articles no comprehensive study has been written about the learned men and women in America with Czechoslovak roots That s what this compendium is all about with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Czech and Slovak immigrants including Bohemian Jews have brought to the New World their talents their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for the remarkable success and achievements of these settlers in their new home transcending through their descendants as this monograph demonstrates The monograph has been organized into sections by subject areas i e Scholars Social Scientists Biological Scientists and Physical Scientists Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on

geographical ground without regards to their native language or ethical background This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated Consequently it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt Doing it in any other way would be a mere guessing and thus less objective *British Working Class women authors (born before 1962) a list* Stefan Szczelkun,2025-06-07 A collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence

Introduction Looking through Sarah Richardson s *Writing on the Line* 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from *Writing on the Line* and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel
