Living in Time Albert Gelpi, 1998-02-19 The Oxford poets of the 1930s W H Auden C Day Lewis Stephen Spender and Louis MacNeice represented the first concerted British challenge to the domination of twentieth century poetry by the innovations of American modernists such as Ezra Pound and William Carlos Williams Known for their radical politics and aesthetic conservatism the Auden Generation has come to loom large in our map of twentieth century literary history Yet Auden's voluble domination of the group in its brief period of association and Auden's sway with critics ever since has made it difficult to hear the others on their own terms and in their own distinct voices Here rendered in eloquent prose by one of our most distinguished critics of modern poetry is the first full length study of the poetry of C Day Lewis a book that introduces the reader to a profoundly revealing and beautifully wrought record of his poetry against the cultural and literary ferment of this century Albert Gelpi explores in three expansive sections the major periods of the poet's development beginning with the emergence of Day Lewis in the thirties as the most radical of the Oxford poets An artist who sought through poetry a way of living in time without traditional religious assurances Day Lewis went further than his friends in seeking to forge a revolutionary poetry out of his commitment to Marxism When Stalinism led to his resignation from the Communist Party Day Lewis in the forties went on to shape a rich fiercely perceptive poetry out of the convergence of the wartime crisis with the explosive events of his own inner life intensified by the erotics of a decade long affair Returning to his Irish roots and meditating on the persistent tension between agnosticism and faith in the work of his third and final period Day Lewis wrote some of the most moving poems in the language about mortality and dying the limits and possibilities of human striving Through the traumatic changes of his life C Day Lewis came increasingly to depend on the intricacies of poetry itself as a way of living in time His abiding belief in the psychological and moral functions of poetry impelled him in his critical writings and in his own poetic practice to delineate a modern poetics that presents an effective alternative to the elitist experimentation associated with Modernism This vital revisionist reading of Day Lewis demonstrates that much of his best work was written after the thirties and establishes him as one of the most significant and accomplished British poets of the modern period

Animals in Classic American Poetry John Cullen

Gruesser, 2025-05-30 In this companion volume to *Animals in the American Classics* How Natural History Inspired Great Fiction John Cullen Gruesser brings together leading experts who explore the integral role animals play in American poetry The ten essays in *Animals in Classic American Poetry* How Natural History Inspired Great Verse showcase how the natural

history of and imagery relating to animals have inspired some of America's best known and most beloved poets. The book highlights exceptional literary verse from the first American to publish a book of poems, Puritan Anne Bradstreet in the seventeenth century to the African American writer Yusef Komunyakaa and the Native American Joy Harjo, a recent US poet laureate in the twenty-first century. Essays on the well-known figures Edgar Allan Poe, Walt Whitman, Herman Melville, Emily Dickinson, Robert Frost, Marianne Moore, and Elizabeth Bishop round out this pathbreaking collection. *Animals in Classic American Poetry* provides a glimpse into the brilliant, burrowing and passionate minds of some of America's most revered poets. Whether it is Poe's haunting hybrid description of a raven, Emily Dickinson's nostalgic yet chilling observations about a garter snake, or Robert Frost's unsettled and unsettling ruminations about a spider consuming a moth, each poet reflects on what it means to be a nonhuman and a human animal. Not just for students, professors, and scholars of literature, this unique project will appeal to scientists and general readers because of the truly interdisciplinary way in which it examines our biodiverse natural world through the lens of unforgettable American poetry.

Whispers from the Lion Mountain Jimmy B. Smith, 2013. This beautifully written book of mostly solemn poetry succinctly captures the true ordeal of an African country in the midst of war, violence, demise, corruption, poverty, and hope. Smith creates a relation between these varying themes that abounded in his Motherland, Sierra Leone, between the period 1991–2002. He ponders the future of the country he grew up seeing torn apart by civil war through his sleek and subtle yet easy-to-understand poetry. Between the lines, though, this young poet's voice re-echoes a certain optimism that THE LION MOUNTAIN, Sierra Leone's moniker, will bounce back, refreshed and take its rightful place in the world.
