Whitewashing Race The Myth Of A Color Blind Society:

Whitewashing Race Michael K. Brown, 2003-09-18 A collection of articles in which sociologists political scientists economists criminologists and legal scholars explore the logic and evidence behind the widely held belief in a color blind society

Is Racial Equality Unconstitutional? Mark Golub, 2018 For some the idea of a color blind constitution signals a commonsense ideal of equality and a new post racial American era For others it supplies a narrow constitutional vision which serves to disqualify many of the tools needed to combat persistent racial inequality in the United States Rather than taking a position either for or against color blindness Mark Golub takes issue with the blindness consciousness dichotomy itself This book demonstrates how color blind constitutionalism conceals its own race conscious political commitments in defense of existing racial hierarchy and renders the pursuit of racial justice as a constitutionally impermissible goal

Colorblind Racism Meghan Burke, 2018-11-26 How can colorblindness the idea that race does not matter be racist This illuminating book introduces the paradox of colorblind racism how dismissing or downplaying the realities of race and racism can perpetuate inequality and violence Drawing on a range of theoretical approaches and real life examples Meghan Burke reveals colorblind racism to be an insidious presence in many areas of institutional and everyday life in the United States She explains what is meant by colorblind racism uncovers its role in the history of racial discrimination and explores its effects on how we talk about and treat race today The book also engages with recent critiques of colorblind racism to show the limitations of this framework and how a deeper more careful study of colorblindness is needed to understand the persistence of racism and how it may be challenged This accessible book will be an invaluable overview of a key phenomenon for students across the social sciences and its far reaching insights will appeal to all interested in the social life of race and racism

Getting Real About Race Stephanie M. McClure, Cherise A. Harris, 2017-08-24 This popular reader is an edited collection of short essays that address the most common myths and misconceptions about race and racism held by students and by many in the United States in general In the updated Second Edition of *Getting Real About Race* editors Stephanie M McClure and Cherise A Harris continue to enlist leading experts and educators to address the arguments about topics that students will recognize from private conversations and public discourse including colorblindness meritocracy educational attainment and definitions of citizenship Each essay considers the evidence against one particular racial myth and is written in clear jargon free language The unique format of this book makes it especially conducive to productive discussions about race

The Meaning of Multiraciality Aurora Chang, 2022-05-09 *The Meaning of Multiraciality* A Racially Queer Exploration of Multiracial College Students Identity Production provides a comprehensive overview of Multiraciality as a term experience and identity using data from a study of Multiracial college students and well as the author's own experiences as a Multiracial person Utilizing a racially queer framework they discuss what it means to be a Multiracial insider being a Multiracial researcher studying Multiracial study participants the counter stories of Multiracial college

students the theorizing that has emerged as a result and the educational consequences and impacts on Multiracial students overall The author explores the following questions How do Multiracial students produce their identities How do Multiracial students exercise their agency How does the notion of Multiraciality perpetuate and disrupt notions of race How can we expand theoretical understandings of race so that they take Multiracial people into account specifically within educational settings The author illustrates the agentic ways in which Multiracial college students come to understand and experience the complexity of their racialized identity production Their counter narratives reveal an otherwise invisible student population providing an opportunity to broaden critical discourses around education and race **After Artest** David J.

Leonard,2012-04-24 On November 19 2004 a fight between NBA players Ron Artest and Ben Wallace escalated into a melee involving several other players and many fans The Palace Brawl writes David J Leonard was a seminal event one that dramatically altered outside perceptions of the sport With commentators decrying the hip hop or gangsta culture of players the blackness of the NBA was both highlighted and disdained This was a harsh blow to the league s narrative of colorblindness long cultivated by Commissioner David Stern and powerfully embodied in the beloved figure of Michael Jordan As Leonard demonstrates the league viewed this moment as a threat needing intervention quickly adopting policies to govern black players and prevent them from embracing styles and personas associated with blackness This fascinating book discloses connections between the NBA s discourse and the broader discourse of antiblack racism Particular policy changes that seemed aimed at black players such as the NBA dress code and the debate over a minimum age requirement are explored

Black Lives and Spatial Matters Jodi Rios,2020-08-15 Black Lives and Spatial Matters is a call to reconsider the epistemic violence that is committed when scholars policymakers and the general public continue to frame Black precarity as just another racial cultural or ethnic conflict that can be solved solely through legal political or economic means Jodi Rios argues that the historical and material production of blackness as risk is foundational to the historical and material construction of our society and certainly foundational to the construction and experience of metropolitan space She also considers how an ethics of lived blackness living fully and visibly in the face of forces intended to dehumanize and erase can create a powerful counter point to blackness as risk Using a transdisciplinary methodology Black Lives and Spatial Matters studies cultural institutional and spatial politics of race in North St Louis County Missouri as a set of practices that are intimately connected to each other and to global histories of race and race making As such the book adds important insight into the racialization of metropolitan space and people in the United States The arguments presented in this book draw from fifteen years of engaged research in North St Louis County and rely on multiple disciplinary perspectives and local knowledge in order to study relationships between interconnected practices and phenomena *Reproducing Racism* Wendy Leo Moore,2008 Law schools serve as gateway institutions into one of the most politically powerful social fields the profession of law Reproducing Racism is an examination of white privilege and power in two elite United States law schools

Moore examines how racial structures racialized everyday practices and racial discourses function in law schools Utilizing an ethnographic lens Moore explores the historical construction of elite law schools as institutions that reinforce white privilege and therefore naturalize white political social and economic power *The Rise of Common-Sense Conservatism* Antti Lepistö, 2021-04-20 In considering the lodestars of American neoconservative thought among them Irving Kristol Gertrude Himmelfarb James Q Wilson and Francis Fukuyama Antti Lepistö makes a compelling case for the centrality of their conception of the common man in accounting for the enduring power and influence of their thought Lepistö locates the roots of this conception in the eighteenth century Scottish Enlightenment Subsequently the neoconservatives weaponized the ideas of Adam Smith Thomas Reid and David Hume to denounce postwar liberal elites educational authorities and social reformers ultimately giving rise to a defining force in American politics the common sense of the common man *Rebirthing a Nation* Wendy K. Z. Anderson, 2021-04-22 Although US history is marred by institutionalized racism and sexism postracial and postfeminist attitudes drive our polarized politics Violence against people of color transgender and gay people and women soar upon the backdrop of Donald Trump Tea Party affiliates alt right members like Richard Spencer and right wing political commentators like Milo Yiannopoulos who defend their racist and sexist commentary through legalistic claims of freedom of speech While more institutions recognize the volatility of these white men s speech few notice or have thoughtfully considered the role of white nationalist alt right and conservative white women s messages that organizationally preserve white supremacy In *Rebirthing a Nation* White Women Identity Politics and the Internet author Wendy K Z Anderson details how white nationalist and alt right women refine racist rhetoric and web design as a means of protection and simultaneous instantiation of white supremacy which conservative political actors including Sarah Palin Donald Trump Kellyanne Conway Sarah Huckabee Sanders and Ivanka Trump have amplified through transnational politics By validating racial fears and political divisiveness through coded white identity politics postfeminist and motherhood discourse functions as a colorblind gilded cage *Rebirthing a Nation* reveals how white nationalist women utilize colorblind racism within digital space exposing how a postfeminist framework becomes fodder for conservative white women s political speech to preserve institutional white supremacy **When the Center Is on Fire** Diane Sue Harriford, Becky W. Thompson, 2021 In this lively and provocative book two feminist public sociologists turn to classical social thinkers W E B Du Bois Max Weber Karl Marx and mile Durkheim to understand a series of twenty first century social traumas including the massacre at Columbine High School the 9 11 attacks the torture at Abu Ghraib prison and Hurricane Katrina Each event was overwhelming in its own right while the relentless pace at which they occurred made it nearly impossible to absorb and interpret them in any but the most superficial ways Yet each uncovered social problems that cry out for our understanding and remediation In *When the Center Is on Fire* Becky Thompson and Diane Harriford assert that classical social theorists grappled with the human condition in ways that remain profoundly relevant They show for example that the loss of double consciousness that Du Bois

identified in African Americans enabled political elites to turn a blind eye to the poverty and vulnerability of many of New Orleans's citizens. The authors' compelling, sometimes irreverent, often searing interpretations make this book essential reading for students, activists, generations X, Y, and Z, and everybody bored by the 6 o'clock news. The Oxford Handbook of Prevention in Counseling Psychology Elizabeth Vera, 2012-10-18. Intersectionality as Critical Social Theory Patricia Hill Collins, 2019-08-23. In *Intersectionality as Critical Social Theory*, Patricia Hill Collins offers a set of analytical tools for those wishing to develop intersectionality's capability to theorize social inequality in ways that would facilitate social change. While intersectionality helps shed light on contemporary social issues, Collins notes that it has yet to reach its full potential as a critical social theory. She contends that for intersectionality to fully realize its power, its practitioners must critically reflect on its assumptions, epistemologies, and methods. She places intersectionality in dialog with several theoretical traditions from the Frankfurt school to black feminist thought to sharpen its definition and foreground its singular critical purchase, thereby providing a capacious interrogation into intersectionality's potential to reshape the world.

Mexican Americans Across Generations Jessica Vasquez-Tokos, 2011-04-18. Outstanding Academic Title from 2011 by Choice Magazine. While newly arrived immigrants are often the focus of public concern and debate, many Mexican immigrants and Mexican Americans have resided in the United States for generations. Latinos are the largest and fastest growing ethnic group in the United States, and their racial identities change with each generation. While the attainment of education and middle class occupations signals a decline in cultural attachment for some, socioeconomic mobility is not a cultural death knell as others are highly ethnically identified. There are a variety of ways that middle class Mexican Americans relate to their ethnic heritage and racialization; despite assimilation, among a segment of the second and third generations, it reveals the continuing role of race even among the U.S. born. *Mexican Americans Across Generations* investigates racial identity and assimilation in three generation Mexican American families living in California. Through rich interviews with three generations of middle class Mexican American families, Vasquez focuses on the family as a key site for racial and gender identity formation, knowledge transmission, and incorporation processes, exploring how the racial identities of Mexican Americans both change and persist generationally in families. She illustrates how gender, physical appearance, parental teaching, historical era, and discrimination influence Mexican Americans' racial identity and incorporation patterns, ultimately arguing that neither racial identity nor assimilation are straightforward progressions but instead develop unevenly and are influenced by family, society, and historical social movements.

The Routledge Companion to Race and Ethnicity Stephen M. Caliendo, Charlton D. McIlwain, 2010-11-17. The *Routledge Companion to Race and Ethnicity* is a comprehensive guide to the increasingly relevant, broad, and ever-changing

Brown,2025-02-04 The question of economic justice for Black Americans remains unresolved and continues to be the subject of contentious political debate In *Unjust Restitution* Michael K Brown examines the meaning of racial equality during three transformative periods in American history when significant changes to economic status and opportunity appeared to be a real possibility in the US Reconstruction the New Deal and the Great Society Political leaders believed slavery and Jim Crow degraded Black people and enacted policies to rehabilitate formerly subjugated individuals Black Americans challenged this conception and repudiated the idea that they were damaged people in need of repair Repeatedly Black people's vision of economic justice was based on anti privilege egalitarianism the idea that a just restitution for their oppression required abolishing the political and legal privileges whites had acquired Black opposition reveals what was at stake at each historical moment and what might constitute economic justice in the twenty first century Equality of opportunity can be a just restitution for continuing durable racial inequality only if it changes the structure of people's economic opportunities

Black Rights/White Wrongs Charles W. Mills,2017-03-01 Liberalism is the political philosophy of equal persons yet liberalism has refused equality to those it saw as sub persons Liberalism is the creed of fairness yet liberalism has been complicit with European imperialism and African slavery Liberalism is the classic ideology of Enlightenment and political transparency yet liberalism has cast a dark veil over its actual racist past and present In sum liberalism's promise of equal rights has historically been denied to blacks and other people of color In *Black Rights White Wrongs The Critique of Racial Liberalism* political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in self conceived liberal polities today Mills argues that rather than bracket as an anomaly the role of racism in the development of liberal theory we should see it as shaping that theory in fundamental ways As feminists have urged us to see the dominant form of liberalism as a patriarchal liberalism so too Mills suggests we should see it as a racialized liberalism It is unsurprising then if contemporary liberalism has yet to deliver on the recognition of black rights and the correction of white wrongs These essays look at racial liberalism past and present white ignorance as a guilty ignoring of social reality that facilitates white racial domination Immanuel Kant's role as the most important liberal theorist of both personhood and sub

personhood the centrality of racial exploitation in the United States and the evasion of white supremacy in John Rawls's ideal theory framing of social justice and in the work of most other contemporary white political philosophers Nonetheless Mills still believes that a deracialized liberalism is both possible and desirable He concludes by calling on progressives to Occupy liberalism and develop accordingly a radical liberalism aimed at achieving racial justice

Social Change in Diverse Teaching Contexts Nancy G. Barron, Nancy Maloney Grimm, Sibylle Gruber, 2006 Assumptions based on racial class and ethnic identities can undermine our best intentions as teachers administrators and scholars The misguided strategy of colorblindness and the continuing racial segregation of American cities and schools leave teachers and students with little experience for addressing the touchy subject of racial identity in the classroom This collection pertinent for teacher preparation undergraduate and graduate seminars and reading discussion groups focuses on new and experienced teachers who confront myths who negotiate their own identities as well as identity politics in the classroom and who design new projects use new tools and apply new practices The chapters highlight the need to change how teachers respond to student work manage classroom interactions form collaborative partnerships construct service learning projects and conduct research

Miller, 2020-01-20 In Rhetoric of the Protestant Sermon in America Pulpit Discourse at the Turn of the Millennium ten scholars analyze notable sermons from the fifty year span between 1965 and 2015 during which the Protestant sermon has undergone significant change in the United States Contributors examine how this turbulent time period witnessed a variety of important shifts in the arguments evidences and rhetorical strategies employed by contemporary preachers Because religious practice is inextricably tangled in the culture politics and economy of its historical situation the public expression of a faith is certain to move with the times In their treatment of race sex gender class and citizenship sermons apply ancient texts to current events and controversies often to revealing effect This collection thoughtfully edited by Eric C Miller and Jonathan J Edwards demonstrates how the genre of the Protestant sermon has evolved or resisted evolution across the years Scholars of religion rhetoric communication sociology and cultural studies will find this book particularly useful

Blood Sugar Anthony Ryan Hatch, 2016-04-10 Why do African Americans have exceptionally high rates of hypertension diabetes and obesity Is it their genes Their disease prone culture Their poor diets Such racist explanations for racial inequalities in metabolic health have circulated in medical journals for decades Blood Sugar analyzes and challenges the ways in which metabolic syndrome has become a major biomedical category that medical researchers have created to better understand the risks high blood pressure blood sugar body fat and cholesterol pose to people An estimated sixty million Americans are well on the way to being diagnosed with it many of them belonging to people of color Anthony Ryan Hatch argues that the syndrome represents another very real crisis and that its advent signals a new form of colorblind scientific racism a repackaging of race within biomedical and genomic research Examining the cultural discussions and scientific practices that target human metabolism

of prescription drugs and sugar by African Americans he reveals how medical researchers who use metabolic syndrome to address racial inequalities in health have in effect reconstructed race as a fixed biological genetic feature of bodies without incorporating social and economic inequalities into the equation And just as the causes of metabolic syndrome are framed in racial terms so are potential drug treatments and nutritional health interventions The first sustained social and political inquiry of metabolic syndrome this provocative and timely book is a crucial contribution to the emerging literature on race and medicine It will engage those who seek to understand how unjust power relations shape population health inequalities and the production of medical knowledge and biotechnologies
