Parliament. House of Commons. Welsh Affairs Committee,2009 This inquiry arose from the Committee s belief that any benefits of the 2012 Olympic and Paralympic Games should be felt in Wales and not only in London and the South East of England The Committee cannot yet conclude whether Wales will benefit from the 2012 Games Few events will be held in Wales and it is not predicted that Wales will benefit greatly from tourism generated by the Games An opportunity was missed in the original bid to locate events in Wales particularly in respect of mountain biking and canoeing In retrospect it now seems misguided to build expensive new venues when such facilities exist in Wales Lottery funding will be diverted from Wales to fund the Games with a loss of an estimated 100 million which will have a long term effect on grassroots projects with a reduction in the number of new facilities built and possible problems in maintaining current structures The Government has launched the London 2012 Business Network and CompeteFor but there Welsh companies currently only account for 2 per cent of all the total number of registrations on the CompeteFor network The most obvious benefit to Wales arises from the fact that the Olympic and Paralympic Games in London provide a unique opportunity to generate interest in sport amongst children and young people Disability sports is a great success story for Wales and the community programme ensures that there are opportunities for children and young people with disabilities It is important that all sections of Welsh society are engaged with the Olympics and Paralympics and its ideals **Planning Research in Hospitality & Tourism** Levent Altinay,Alexandros Paraskevas,2009-11-04 Planning Research in Hospitality and Tourism provides a concise and clear approach to planning research projects which are a necessity in most hospitality and tourism courses taught at degree level The text considers the particular characteristics of the hospitality and tourism industry whilst providing a balanced approach toward both quantitative and qualitative methods of research The text also carefully considers the international aspect of the industry and the people it employees which supports the books aims of Providing an excellent understanding of the basic principles of conducting research in a straight forward no nonsense guide Carefully considering the particular characteristics of the hospitality and tourism sectors in relation to embarking on a research project in the area Including in each chapter an International Dimension section as well as case studies questions and reflections on the research process **Sports around the World** John Nauright,2012-04-06 This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world it also details how and why sports are played wherever they exist and examines key charismatic athletes from around the world who have transcended their sports Sports Around the World History Culture and Practice provides a unique global overview of
