Scientific Canadian Mechanics' Magazine and Patent Office Record Canada. Patent Office, 1914 *The Canadian Patent Office Record and Register of Copyrights and Trade Marks* ,1928 **The North American Folk Music Revival: Nation and Identity in the United States and Canada, 1945-1980** Gillian Mitchell, 2016-02-17 This work represents the first

comparative study of the folk revival movement in Anglophone Canada and the United States and combines this with discussion of the way folk music intersected with and was structured by conceptions of national affinity and national identity. Based on original archival research carried out principally in Toronto, Washington and Ottawa, it is a thematic rather than general study of the movement which has been influenced by various academic disciplines including history, musicology and folklore. Dr Gillian Mitchell begins with an introduction that provides vital context for the subject by tracing the development of the idea of the folk, folklore and folk music since the nineteenth century and how that idea has been applied in the North American context before going on to examine links forged by folksong collectors, artists and musicians between folk music and national identity during the early twentieth century. With the boom of the revival in the early sixties came the ways in which the movement in both countries proudly promoted a vision of nation that was inclusive, pluralistic and eclectic. It was a vision which proved compatible with both Canada and America, enabling both countries to explore a diversity of music without exclusiveness or narrowness of focus. It was also closely linked to the idealism of the grassroots political movements of the early 1960s such as integrationist civil rights and the early student movement. After 1965 this inclusive vision of nation in folk music began to wane. While the celebrations of the Centennial in Canada led to a re-emphasis on the Canadianness of Canadian folk music, the turbulent events in the United States led many ex-revivalists to turn away from politics and embrace new identities as introspective singer-songwriters. Many of those who remained interested in traditional folk music styles such as Celtic or Klezmer music tended to be very insular and conservative in their approach rather than linking their chosen genre to a wider world of folk music. However, more recent attempts at fusion or world music suggest a return to the eclectic spirit of the 1960s folk revival. Thus, from 1945 to 1980, folk music in Canada and America experienced an evolving and complex relationship with the concepts of nation and national identity. Students will find the book useful as an introduction not only to key themes in the folk revival but also to concepts in the study of national identity and to topics in American and Canadian cultural history. Academic specialists will encounter an alternative perspective from the more general, broad approach offered by earlier histories of the folk revival movement.

The Book Trade in Canada, 1999 **Canada Since 1960: A People's History** Cy Gonick, 2016-04-18

When Winnipeg's Cy Gonick started the magazine *Canadian Dimension* in 1963 to provide a home for the thinking and analysis of mostly young leftists engaged in Canadian economic, social, cultural, artistic and political issues, he had no grand plan. But *Canadian Dimension* was welcomed by intellectuals, scholars and students and it proved enduring. Hundreds of Canada's leading figures of the left have contributed to its pages over the years, writing about every major topic in Canadian public life. This book offers an account of the most important developments in Canadian history from the sixties until today as seen and interpreted by scholars and writers on the pages of *Dimension*. Each chapter reviews a major theme such as Canada's relationship to the U.S., the development of our health care system, the dynamics of Aboriginal/non-Aboriginal relations and the role of Canadian cultural work in shaping Canadian society. Taken

together the book provides a unique and broad perspective on virtually every significant event and development in recent Canadian history Readers who know the magazine will find this book a compelling summary of how Canada changed in the past five decades and how the Left saw those changes and challenged them Readers who discover Canadian Dimension through this book will find a multitude of compelling voices who challenge the dominant neoliberal thinking of mainstream Canadian intellectual life The twenty seven contributors from every part of the country are Greg Albo Brenda Austin Smith Chris Bailey Evan Bowness Mordecai Briemburg Elizabeth Comack Angela Day Bryan Evans Alvin Finkel Peter Graefe Judy Haiven Larry Haiven Trevor Harrison Henry Heller David Hugill Peter Kulchyski Andrea Levy James McCorrie James Naylor Bryan Palmer Denis Pilon Joe Roberts Stephanie Ross Arthur Schafer Frank Tester John Warnock and Chris Webb
