Spring City And Royersford America Through Time:

Spring City and Royersford William C. Brunner, 2014 From the early 1800s there was a need for people to travel between the two settlements that were separated by the Schuylkill River In 1839 the opening of the railroad in Royersford increased that desire and resulted in the first bridge being built just one year later in 1840 Although this covered wooden bridge was washed away in a flood 10 years later it was replaced immediately with another similar wooden structure In 1884 a fire burned down this bridge The twin boroughs dependent on this vital connecting link built an iron bridge that was dubbed The Permanent Bridge In 1922 this iron bridge was condemned due to rust and a new cement bridge was erected Although the cement bridge has been reconditioned several times it still serves the communities today with a constant flow of cars and trucks crossing over daily
