11. Which is true about Native Americans before the European settlers came?

- They were few in numbers, but some tribes were constantly waging war against each other.
- High native populations were in the northeast region, but the rest of the country was mostly uninhabited.
- The entire nation was populated with many tribes of native people. The tribes were diverse in languages, customs, and ways of living.
- The Native American population comprised of the Algonquian, Iroquois and Seminole tribes. These 3 "major tribes" later branched off into many different tribes.

12. Why did European settlers come to the Americas?

national territories In its dependence on existing infrastructural systems though the network of container movement as it pervades domestic space is shaped by the history and geography of the nation state This global network is not invariably imposed in a top down manner to a large degree it is cobbled together out of national regional and local systems Heins describes this in the American context examining the freight transportation infrastructures of railroads trucking and inland waterways and also the terminals where containers are transferred between train and truck The book provides a detailed historical narrative and is also theoretically informed by the contemporary literature on infrastructure and globalization
