Marketing Information Michael R. Oppenheim, Wendy Diamond Mulcahy, 2013-10-31 Help your patrons create effective marketing research plans with this sourcebook *Marketing Information A Strategic Guide for Business and Finance Libraries* identifies and describes secondary published sources of information for typical marketing questions and research projects. Experts in the field offer a guided tour of the signposts and landmarks in the world of marketing information, highlighting the most important features. This extensive guide serves as a strategic bibliography covering over 200 printed books and serials, subscription databases, and free Web sites. *Marketing Information* contains several useful features including basic bibliographic descriptions with publisher, location, frequency, format, price, and URL; contact information for each source listed; special text boxes with practical tips, techniques, and short cuts; an alphabetical listing of all source titles; an index to subjects and sources. Unlike some research guides that recommend only esoteric and expensive resources, this book offers a well-balanced mix of the readily available and the costly and/or not widely available, so that researchers who lack immediate access to a large university business research collection still have a core of accessible materials that can be found in a public library or on the Web. This book will help you provide top notch service to clients such as marketing instructors in developing assignments and other curricula which incorporate a business information literacy component; students whose assignments require library or other research to identify and use key marketing information tools; entrepreneurs and self-employed business people writing marketing plans, business plans, loan applications, and feasibility plans; marketers who wish to consult and/or incorporate standard secondary sources in their marketing plans or research projects; experienced market researchers who need relevant secondary sources as a preliminary step to surveys, questionnaires, and focus groups; reference librarians who advise these groups in academic, public, or corporate library settings; collection development librarians selecting material for public, academic, and special libraries. *Marketing Information* is a practical tool for marketers and for those studying to be marketers. The authors are seasoned academic business librarians who have helped doctoral candidates, faculty researchers, MBA and undergraduate students, marketing professionals, entrepreneurs, and business managers all find the right information. Now in this resource, they come together to help you.

The Basic Business Library Eric Forte, Michael R. Oppenheim, 2011-11-30 Everything you need to know in order to start, maintain, and provide service for a business collection and to research virtually any business topic. Now in its fifth edition, *The Basic Business Library* is a modern sourcebook of core resources for the business library and the business information consumers and researchers it serves. This up-to-date guide also discusses strategies for acquiring and building the business collection in a Web 2.0/3.0 world and recommended approaches to providing reference service for business research. This text includes numerous real-world examples that cover market research, investment, economics, management, and marketing. This is a single volume guide to doing business research and managing business resources and services in a multitude of library environments. Readers will gain an understanding of
