Services Marketing: Integrating Customer Focus Across the Firm Alan Wilson, Valarie Zeithaml, Mary Jo Bitner, Dwayne Gremler, 2012-06-16 The Second European Edition of Services Marketing Integrating Customer Focus Across the Firm by Wilson Zeithaml Bitner and Gremler uniquely focuses on the development of customer relationships through quality service. Reflecting the increasing importance of the service economy, Services Marketing is the only text that puts the customer's experience of services at the centre of its approach. The core theories, concepts and frameworks are retained and specifically the gaps model, a popular feature of the book. The text moves from the foundations of services marketing before introducing the gaps model and demonstrating its application to services marketing. In the second edition, the book takes on more European and International contexts to reflect the needs of courses, lecturers and students. The second edition builds on the wealth of European and International examples, cases and research in the first edition, offering more integration of European content. It has also been fully updated with the latest research to ensure that it continues to be seen as the text covering the very latest services marketing thinking. In addition, the cases section has been thoroughly examined and revised to offer a range of new case studies with a European and global focus. The online resources have also been fully revised and updated, providing an excellent package of support for lecturers and students. **Graphic Showbiz** Nanabanyin Dadson, 2005-01-27

Media and Digital Management Eli M. Noam, 2019-01-23 Being a successful manager or entrepreneur in the media and digital sector requires creativity, innovation and performance. It also requires an understanding of the principles and tools of management. Aimed at the college market, this book is a short foundational volume on media management. It summarizes the major dimensions of a business school curriculum and applies them to the entire media, media tech and digital sector. Its chapters cover, in a jargonless, non-technical way, the major functions of management: First, creating a media product, the financing of projects and the management of technology, HR, production, operations, intellectual assets and government relations. Second, harvesting the product, created market, research, marketing, pricing and distribution. And third, the control loop, media accounting and strategy planning. In the process, this book becomes an indispensable resource for those aiming for a career in the media and digital field, both in startups and established organizations. This book is designed to help those aiming to join the media and digital sector to become creative managers.
