

How To Write an Interview Report (With Templates and Examples)

By Indeed Editorial Team

March 18, 2021

Interviews are an opportunity to create a personal rapport while having a professional conversation. Depending on your industry, you may conduct interviews for a variety of purposes, including job interviews, performance assessments and published informational or promotional articles. Transferring a conversation into a written report is a valuable skill that takes practice and preparation. In this article, we discuss what interview reports are, explain how to write them and provide templates and examples.

What is an interview report?

An interview report is a written record of a professional, guided conversation. These reports may be intended for the public as published articles interviewing an important or public figure or for private use in admissions and hiring situations. Many companies interview job candidates one-on-one, but there are typically multiple people in a company involved in the hiring process. These people also need to get information and insight into each job candidate interviewed. The easiest way to accomplish this is to have the person conducting interviews write a report summarizing the experience that they can share with others.

Related: [How To Write a Report for Work \(With Examples\)](#)

Why are interview reports important?

Interview reports have the following important benefits:

- Recording detailed information
- Combining facts and subjective impressions for the reader
- Providing a searchable record of events
- Serving as a structure for planning the interview
- Aiding in company decision making

How to write an interview report

Writing interview reports is an important business skill to practice. Follow these steps to create an interview report:

1. Combine interview preparation with writing preparation

Write Report About Interview A Pharmacist

Larry K. Olsen

Write Report About Interview A Pharmacist:

Interprofessional Approaches for the Management of Chronic Diseases Alberto Marcos Heredia-Rizo, Maria Jesus Casuso-Holgado, Javier Martinez-Calderon, Emma K. Ho, 2024-09-30 Chronic diseases represent the leading causes of death and disability worldwide with a subsequent enormous socioeconomic burden The clinical management of these conditions often requires a multidisciplinary approach to treat the complex symptoms related to the disease and the associated problems Different healthcare systems have been experimenting with interprofessional collaboration to enhance professional effectiveness and quality of practice among professionals in an environment often constrained by resources The optimum use of resources is made possible by interprofessional collaboration which is described as an integrative cooperation of many health professions in different health disciplines including medicine nursing physical therapy psychology and occupational therapy It has been demonstrated that interprofessional care improves patient outcomes by lowering the rate of preventable adverse drug reactions morbidity and mortality and optimising prescription dosages However despite the increasing evidence on the positive impact of integrative multidisciplinary programs for people with chronic diseases there are still gaps and challenges in how to translate evidence based knowledge into well informed clinical practice The aim of this Research Topic is to explore the current status and future direction of interprofessional care teams We are open to receiving articles that explore interprofessional collaboration in the context of various clinical diagnoses including chronic pain cancer neurological ailments psychiatric problems or cardiorespiratory conditions Also the effects of new health technologies on interprofessional collaboration such as virtual reality mobile health apps or telecare *Being Healthy: Teacher's edition* Larry K.
