Photographer's Guide - Get The Most From Your Sony DSC-RX100 IV A J Wright, 2020-03-31

This book, *Photographer's Guide: Get the most from your Sony DSC RX100 IV*, is a comprehensive guide for using the most advanced yet portable Sony Cyber-shot DSC RX100 IV camera. In this book, I provide you the user of the RX100 IV with clear and well-illustrated manual that covers all functions and aspects of the RX100IV's operation. I have used a tutorial-like approach so that both the beginner and intermediate photographers can accomplish many amazing things with the camera. I take the pain to explain why and when to use the camera's awesome features. The book provides details about the camera's shooting modes as well as its menu options for shooting, playback, setup, and special effects. The book covers all of the features of the RX100 IV that are new for this model, including its electronic shutter, faster continuous shooting, 4K video recording, and ability to shoot video at up to 960 frames per second for super slow motion playback. The book includes more than 450 color photographs that illustrate the camera's controls, display screens, and menus. The images also provide examples of photographs taken using the RX100 IV's Scene mode with settings optimized for subjects such as landscapes, sunsets, portraits, and action shots, and the Creative Style and Picture Effect menu options with settings for altering the appearance of images. The book also provides introductions to topics such as street photography, astrophotography, and digiscoping. The book includes a full discussion of the video features of the RX100 IV, which can shoot HD and 4K ultra HD movies, and which offers manual control of exposure and focus during movie recording. The book also explains the camera's numerous features that are oriented for professional-level videography, including Picture Profiles that allow adjustment of settings such as gamma curve, black level, knee, and detail. The book provides detailed information about recording 4K video to an external video recorder using the clean video output from the camera's HDMI port.
