Learning and Literacy over Time Julian Sefton-Green,Jennifer Rowsell,2014-09-25 Learning and Literacy over Time addresses two gaps in literacy research studies offering longitudinal perspectives on learners and the trajectory of their learning lives inside and outside of school and studies revealing how past experiences with literacy and

learning inform future experiences and practices It does so by bringing together researchers who revisited subjects of their initial research conducted over the past 10 20 years with people whom they encountered through ethnographic or classroom based investigations and are the subjects of previous published accounts The case studies drawn from countries in three continents and covering a range of social worlds offer an original and at times quite an emotive interpretation of the effects of long term social change in the UK the US Australia and Canada the claims and aspirations made by and for certain kinds of educational interventions how research subjects reflect on and learn from the processes of being co opted into classroom research as well as how they make sense of school experiences some of the widespread changes in literacy practices as a result of our move into the digital era and above all how academic research can learn from these life stories raising a number of challenges about methodology and our claims to know the people we research In many cases the process of revisiting led to important reconceptualizations of the earlier work and a sense of seeing with new eyes what was missed in the past The reflections on methodology and research processes will interest postgraduate and academic researchers The studies of change and of long term effects are widely relevant to teacher educators and scholars in language and literacy education educational anthropology life history research media and cultural studies and sociology

Contemplative Democracy Shannon Lee Mariotti, 2025 In *Contemplative Democracy* Shannon L Mariotti explores how contemplative practices represent a form of world building that is valuable for meaningful democracy and an overlooked form of ordinary political theory Reimagining the work of political theory employing feminist approaches and with a focus on educational spaces and democratic modes of pedagogy Mariotti examines contemplative practices as spaces where ordinary people do the work of democracy creating new political imaginaries finding new selves and founding new states of being Further this book reveals how the larger body politic may be reshaped by the everyday work people do in their own bodies

arts sociology of organisations and information studies It will also be relevant to practitioners and policymakers from museums libraries NGOs and cultural institutions at large *Migrating Heritage* Perla Innocenti,2016-04-22 Bringing together an international forum of experts this book looks at how museums libraries and further public cultural institutions respond to the effects of globalisation mobility and migration across Europe It puts forward examples of innovative practice and policies that reflect these challenges looking at issues such as how cultural institutions present themselves to and interact with multicultural audiences how to support networking across European institutions and share practice in core activities such as archiving interpreting and exhibiting artefacts Academics practitioners from museums and public institutions and policymakers explore theoretical and practical approaches from a range of different disciplines such as museum and cultural heritage studies cultural memory studies social anthropology sociology of organizations cultural heritage management and cultural heritage informatics *Free, Fair, and Alive* David Bollier,Silke Helfrich,2019-09-03 The power of the commons as a free fair system of provisioning and governance beyond capitalism socialism and other isms From co housing and agroecology to fisheries and open source everything people around the world are increasingly turning to commoning to emancipate themselves from a predatory market state system Free Fair and Alive presents a foundational re thinking of the commons the self organized social system that humans have used for millennia to meet their needs It offers a compelling vision of a future beyond the dead end binary of capitalism versus socialism that has almost brought the world to its knees Written by two leading commons activists of our time this guide is a penetrating cultural critique table pounding political treatise and practical playbook Highly readable and full of colorful stories coverage includes Internal dynamics of commoning How the commons worldview opens up new possibilities for change Role of language in reorienting our perceptions and political strategies Seeing the potential of commoning everywhere Free Fair and Alive provides a fresh non academic synthesis of contemporary commons written for a popular activist minded audience It presents a compelling narrative that we can be free and creative people govern ourselves through fair and accountable institutions and experience the aliveness of authentic human presence **The Education of Radical Democracy** Sarah S. Amsler,2015-04-10 The Education of Radical Democracy explores why radical democracy is so necessary difficult and possible and why it is important to understand it as an educative activity The book draws on critical social theory and critical pedagogy to explain what enables and sustains work for radical democratization and considers how we can begin such work in neoliberal societies today Exploring examples of projects from the nineteenth century to the present day the book sheds light on a wealth of critical tools research studies theoretical concepts and practical methods It offers a critical reading of the crisis of hope in neoliberal capitalist societies focusing on the problem of the contraction of possibilities for democratic agency resistance to domination and practices of freedom It argues that radically democratic thinking practice and forms of social organization are vital for countering and overcoming systemic hegemonies and that these can be learned and cultivated This

book will be of interest to academics practitioners researchers and students in education and critical theory and to those interested in the sociology philosophy and politics of hope It also invites new dialogues between theorists of neoliberal power and political possibility those engaged in projects for radical democratization and teachers in formal and informal educational settings

The Future of Education and Labor Gerald Bast,Elias G. Carayannis,David F. J. Campbell,2019-12-10 This book explores the ways in which education impacts labor markets Specifically the contributions in this book indicate that the future of labor is creative socially aware and inter disciplinary while identifying the changes and innovations needed in our educational systems to meet this demand Due to an increasing automatization robotic manufacturing the character of labor and work in general will change dramatically in the near future This will be the case not only in the western countries but also in the larger emerging economies in Asia for example China and India While societal environments economy and the character of labor are increasingly in a process of dramatic changes the educational systems and the leading principles of research about labor and employment are not changing adequately Cross disciplinary inter disciplinary and trans disciplinary thinking and learning is not the main focus of our educational systems Consequently the systems of academic research follow and apply disciplinary or even sub disciplinary strategies avoiding cross disciplinary research approaches and not supporting inter disciplinary academic career models This book introduces such strategic models to better prepare the next generation of workers for the new knowledge economy and the future of democratic societies

The Return of Curiosity Nicholas Thomas,2016-08-15 The Spy Museum the Vacuum Cleaner Museum the National Mustard Museum not to mention the Art Institute the Museum of Modern Art and the Getty Center museums have never been more robust curating just about everything there is and assuming a new prominence in public life The Return of Curiosity explores museums in the modern age offering a fresh perspective on some of our most important cultural institutions and the vital function they serve as stewards of human and natural history Reflecting on art galleries science and history institutions and collections all around the world Nicholas Thomas argues that in times marked by incredible insecurity and turbulence museums help us sustain and enrich society Moreover they stimulate us to think in new ways about our world compelling our curiosity and showing us the importance of understanding one another Thomas looks at museums not simply as storehouses of old things but as the products of meaningful relationships between curators the public history and culture These relationships he shows don t always go smoothly but they do always offer new insights into the many ways we value and try to preserve the world we live in The result is a refreshing and hopeful look at museums as a cultural force one that by gathering together paintings tropical birds antiques or even our own bodies offers an illuminating reflection of who we are
