Smith,2018-05-15 Much to her surprise and relief smart lawyer sleuth Annie MacPherson is being wooed by Seattle s most eminent law firm and its most renown partner But when she enters the rich and hushed halls of Kemble Laughton Mercer and Duff she discovers office politics isn t a game it s a deadly obsession And everyone is a player Annie hasn t even cut through the paperwork when top partner Gordon Barclay s secretary and not so secret lover kills herself The dead woman s sister refuses to believe appearances and wants Annie so far unseduced by Barclay s legendary charms to investigate the high and mighty machinations of Seattle s most feared litigator Things heat up when a sniper targets Annie just as a shocking glimpse into her family s past blows her life wide open Soon Annie finds herself caught in a destructive web of love lies and murder that only her sharp insight and fierce intelligence can unravel The second in the Annie MacPherson mystery series which began with Sea of Troubles Taking the Heat Deborah A. Harris,Patti Giuffre,2015-05-20 A number of recent books magazines and television programs have emerged that promise to take viewers inside the exciting world of professional chefs While media

suggest that the occupation is undergoing a transformation one thing remains clear being a chef is a decidedly male dominated job Over the past six years the prestigious James Beard Foundation has presented 84 awards for excellence as a chef but only 19 were given to women Likewise Food and Wine magazine has recognized the talent of 110 chefs on its annual Best New Chef list since 2000 and to date only 16 women have been included How is it that women the gender most associated with cooking have lagged behind men in this occupation Taking the Heat examines how the world of professional chefs is gendered what conditions have led to this gender segregation and how women chefs feel about their work in relation to men Tracing the historical evolution of the profession and analyzing over two thousand examples of chef profiles and restaurant reviews as well as in depth interviews with thirty three women chefs Deborah A Harris and Patti Giuffre reveal a great irony between the present realities of the culinary profession and the traditional cultural associations of cooking and gender Since occupations filled with women are often culturally and economically devalued male members exclude women to enhance the job s legitimacy For women chefs these professional obstacles and other challenges such as how to balance work and family ultimately push some of the women out of the career Although female chefs may be outsiders in many professional kitchens the participants in Taking the Heat recount advantages that women chefs offer their workplaces and strengths that Harris and Giuffre argue can help offer women chefs and women in other male dominated occupations opportunities for greater representation within their fields Click here to access the Taking the Heat teaching guide http://rutgerspress.rutgers.edu/pages/teaching_guide_for_taking_the_heat.aspx
