The Indo-Pacific: Trump, China, and the New Struggle for Global Mastery Richard Javad Heydarian, 2019-09-25

This book places the presidency of Donald Trump as well as the brewing Sino American Cold War within the broader historical context of American hegemony in Asia which traces its roots to Alfred Thayer Mahan's call for a naval build up in the Pacific the subsequent colonization of the Philippines and ultimately reaching its apotheosis after the defeat of Imperial Japan in the Second World War The book drawing on visits from Cairo to California and Perth to Pyongyang as well as interviews and exchanges with heads of state and senior officials from across the Indo Pacific provides an overview of the arc of American primacy in the region for scholars journalists and concerned citizens

The Plot Against the President Lee Smith, 2019-10-29 Investigative journalist Lee Smith uses his unprecedented access to Congressman Devin Nunes former head of the House Intelligence Committee to expose the deep state operation against the president and the American people Investigative journalist Lee Smith's *The Plot Against the President* tells the story of how Congressman Devin Nunes uncovered the operation to bring down the commander in chief While popular opinion holds that Russia subverted democratic processes during the 2016 elections the real damage was done not by Moscow or any other foreign actor Rather this was a slow moving coup engineered by a coterie of the American elite the deep state targeting not only the president but also the rest of the country The plot officially began July 31 2016 with the counterintelligence investigation that the FBI opened to probe Russian infiltration of Donald Trump's presidential campaign But the bureau never followed any Russians In fact it was an operation to sabotage Trump the candidate then president elect and finally the presidency The conspirators included political operatives law enforcement and intelligence officials and the press The plot was uncovered by Nunes chairman of the House Intelligence Committee and his investigative team They understood that the target of the operation wasn't just Trump but rather the institutions that sustain our republic A country where operatives use the intelligence and security services to protect their privileges by spying on Americans coordinating with the press and using extra constitutional means to undermine an election then undo a presidency is more like the third world than the republic envisioned by the founding fathers Without Nunes and his team the plot against the president and against the country never would have been revealed Told from the perspective of Nunes and his crack investigators men and women who banded together to do the right thing at a crucial moment for our democracy the story of the biggest political scandal in a generation reads like a great detective novel feels like a classic cowboy movie The congressman from the cattle capital of California really did fight corruption in Washington Devin Nunes took on the deep state

Fortunato, 2018-12-31 The success of the PGA Tour lies in the compelling stories of the individual quests for achievement making the tournament cut winning a tournament qualifying for the FedEx Cup Playoffs and the ultimate challenge of making it onto the Tour where victory is often determined by a single stroke Based on interviews with more than twenty professional golfers this book provides new insight into the PGA Tour system the events affecting tournament outcomes and the career changing opportunities that result **Bill Edgar's Quirky Football Quiz Book** Bill Edgar, 2021-08-26 Bill Edgar is simply the best His quizzes draw upon one of the greatest minds in football This is a book nobody with a love of the game can afford to miss MATTHEW SYED It must be good if it's Bill's book JAMIE CARRAGHER The stuff he comes up with is absolutely fantastic There are stats and stats and his stats are excellent JOHN MURRAY BBC Radio Football Correspondent A MUST BUY FOR ANY FOOTBALL FAN THIS BUMPER QUIZ BOOK IS PACKED WITH 1 000 QUESTIONS ABOUT FOOTBALL EVERY SINGLE ONE OF THEM EYE OPENING OR AMUSING Bill Edgar has been a football writer for The Times for the past 23 years specialising in statistics curiosities and quizzes He has been compiling quizzes regularly since 2008 With this quiz book he sets out to intrigue and entertain rather than simply pose questions Every question includes a stat or piece of trivia that is fascinating and entertaining which readers will enjoy whether or not they succeed in answering the question correctly or not **Why the U.S. Men Will Never Win the World Cup** Beau Dure, 2019-11-15 October 10 2017 The U S men's soccer team loses in Trinidad and Tobago and fails to qualify for the 2018 World Cup Winning soccer's greatest prize never seemed more distant Immediate fixes a new coach a revamped professional league a commitment to coaching education won't put the USA in the global elite The nation is too fractious too litigious too wrapped up in other sports and too late to the game In *Why the U S Men Will Never Win the World Cup A Historical and Cultural Reality Check* Beau Dure shows what American soccer is really up against Using hundreds of sources to trace more than 100 years of history Dure delves into the culture that only recently lost its disdain for the global game and still doesn't have the depth of soccer insight and passion that much of the world has had for generations The difficulty isn't any single thing the mismanagement of failed leagues the inability to agree on a path forward the lawsuits that stem from an inability to agree or the unique American culture that treasures its homegrown sports It's everything And yet *Why the U S Men Will Never Win the World Cup* is ultimately

optimistic Dure argues that with the right long term changes the U S can build a soccer environment that consistently produces quality players strong results and a lot more fun on the international stage Soccer fans and skeptics alike will find this a fascinating examination of America s past present and future in the beautiful game **The Road to Unfreedom**

Timothy Snyder,2019-04-09 NEW YORK TIMES BESTSELLER From the author of On Tyranny comes a stunning new chronicle of the rise of authoritarianism from Russia to Europe and America A brilliant analysis of our time Karl Ove Knausgaard The New Yorker With the end of the Cold War the victory of liberal democracy seemed final Observers declared the end of history confident in a peaceful globalized future This faith was misplaced Authoritarianism returned to Russia as Vladimir Putin found fascist ideas that could be used to justify rule by the wealthy In the 2010s it has spread from east to west aided by Russian warfare in Ukraine and cyberwar in Europe and the United States Russia found allies among nationalists oligarchs and radicals everywhere and its drive to dissolve Western institutions states and values found resonance within the West itself The rise of populism the British vote against the EU and the election of Donald Trump were all Russian goals but their achievement reveals the vulnerability of Western societies In this forceful and unsparing work of contemporary history based on vast research as well as personal reporting Snyder goes beyond the headlines to expose the true nature of the threat to democracy and law To understand the challenge is to see and perhaps renew the fundamental political virtues offered by tradition and demanded by the future By revealing the stark choices before us between equality or oligarchy individuality or totality truth and falsehood Snyder restores our understanding of the basis of our way of life offering a way forward in a time of terrible uncertainty **Political Handbook of the World 2022-2023** Tom

on the institutional puzzle that underlies the region's difficulties with democratization and development. In addition to providing an overview of this key element of the Latin American political economy, Peter Kingstone also advances the argument that both state-led and market-led solutions depend on effective institutions but little is known about how and why they emerge. Kingstone offers a unique contribution by mapping out the problem of how to understand institutions, why they are created, and why Latin American ones limit democratic development. This timely and thorough update includes a fresh discussion of the commodity boom in the region and the resulting Golden Era in Latin America. The recent explosion of social policy innovation and concerns about the durability of social reform after the boom. A discussion of the knowledge economy and the limits to economic growth with case studies of successful examples of fostering innovation. **Fast, Cheap and Viral** Aashish Chopra, 2019-09-20.
