referendum Contributors assess the evolution of EU perceptions in each location and discuss how their findings may contribute to crafting foreign policy options for the new EU 27 Brexit is very likely to have a substantial bearing on EU external policy not merely because of the loss of a major member state with a special relationship to the US and the Commonwealth but also because it challenges the integrational success story that the EU strives to embody This book thus serves a dual purpose on the one hand it broadens the recent studies on Brexit by focusing on external partners reactions and on the other it allows for an innovative evaluation of policy options for EU foreign policy Based on a solid theoretical foundation and empirically rich data it constitutes an innovative and timely addition to the evolving debate on Brexit and its consequences This book will be of key interest to scholars and students of European politics Brexit British politics EU politics comparative politics and international relations

The Involvement of EU Law in Private Law Relationships Dorota Leczykiewicz, Stephen Weatherill, 2013-03-12 The involvement of the EU in regulating private conduct and relationships between individuals is increasing As a result EU law affects the scope of private autonomy in ever wider contexts sparking tensions with fundamental concepts of national private law systems This volume offers a descriptive and normative account of the involvement of EU law in private law relationships The recurring theme in the collected papers is the scope of policy objectives which are apt to legitimise the European Union's as yet unsystematic tendency to serve as a source of restrictions of private autonomy The nature and purpose of the involvement of European Union law in private law relationships is investigated by the authors from both the substantive and the constitutional perspective The papers look at such sectors regulating private law relationships as consumer law labour law competition law equal treatment law and the law of remedies While focusing on private law relationships the authors investigate more general concepts of EU law such as the Internal Market freedoms and general principles of law and the different modes of ensuring the effective application of EU secondary law

Constitutional Review in Western Europe

Kálmán Pócza, 2024-04-16 Recent confrontations between constitutional courts and parliamentary majorities in several European countries have attracted international interest in the relationship between the judiciary and the legislature Some political actors have argued that courts have assumed too much power and politics has been extremely judicialized Yet the extent to which this aggregation of power may have constrained the dominant political actors room for manoeuvre has never been examined accurately and systematically This volume fills this gap in the literature To explore the diversity and measure the strength of judicial decisions the authors have elaborated a new methodology that is intended to give a more nuanced picture of the practice of constitutional adjudication in Europe The work opens with an assessment of the existing literature on empirical analysis of judicial decisions with a special focus on Western Europe and a short summary of the methodology of the project This is followed by 11 country studies and a concluding chapter providing a comprehensive comparative analysis of the results A further ten countries are explored in the counterpart volume to this book Constitutional Review in Central and Eastern Europe Judicial Legislative Relations in Comparative Perspective The collection will be an invaluable resource for those working in the areas of empirical legal research and comparative constitutional law as well as political scientists interested in judicial politics Chapters 1 and 13 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Angler's Diary and Tourist Fisherman's Gazetteer of the Rivers and Lakes of the World ... Irwin Edward Bainbridge Cox, 1902 Business Freedoms and Fundamental Rights in European Union Law Niall O'Connor, 2024-10-31 Article 16 of the EU Charter of Fundamental Rights recognizing the freedom to conduct a business in accordance with Union law and national laws and practices has been the subject of intense debate over the value of business freedoms within EU law

Problematically the Court of Justice of the European Union CJEU relied on this provision in a series of highly deregulatory judgments invoking Article 16 to undermine the effectiveness of employee protective legislation Business Freedoms and Fundamental Rights in European Union Law assesses the value placed on the freedom to conduct a business as a fundamental right within the legal reasoning of the CJEU Arguing that this freedom can only properly be understood in relation to its wider constitutional and social rights functions it uses the employment law context as a case study given the tensions that exist between the economic rights of employers and the social rights of employees Examined holistically the book demonstrates that granting fundamental rights status to business freedoms is not inherently deregulatory with such freedoms also encapsulating social rights values and interests The freedom to conduct a business therefore emerges as a malleable fundamental rights concept dependent on the underlying constitutional context whether that be within national constitutional law the EU Charter of Fundamental Rights general principles of EU law or in the arrangements governing the United Kingdom s departure from the EU This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations **The Phrenological Journal and Life Illustrated** ,1871
