Roads to Santiago Cees Nooteboom, 2000. Roads to Santiago is an evocative travelogue through the sights sounds and smells of a little known Spain its architecture art history landscapes villages and people. And as much as it is the story of his travels it is an elegant and detailed chronicle of Cees Nooteboom's thirty five year love affair with his adopted second country. He presents a world not visible to the casual tourist by invoking the great spirits of Spain's past El Cid Cervantes Alfonso the Chaste and Alfonso the Wise the ill fated Hapsburgs and Velázquez. Be it a discussion of his trip to the magnificent Prado Museum or his visit to the shrine of the Black Madonna of Guadalupe Nooteboom writes with the depth and intelligence of an historian the bravado of an adventurer and the passion of a poet. Reminiscent of Robert Hughes's Barcelona Roads to Santiago is the consummate portrait of Spain for all readers.

Women and Pilgrimage E. Moore Quinn, Alison T. Smith, 2022-03-08. Women and Pilgrimage presents scholarly essays that address the lacunae in the literature on this topic. The content includes well trodden domains of pilgrimage scholarship like sacred sites and holy places. In addition the book addresses some of the less well known dimensions of pilgrimage such as the performances that take place along pilgrims paths the ephemeral nature of identifying as a pilgrim and the economic social and cultural dimensions of migratory travel. Most importantly the book's feminist lens encourages readers to consider questions of authenticity essentialism and even what it means to be a woman pilgrim. The volume's six sections are entitled Questions of Authenticity Performances and Celebratory Reclamations Walking Out Women Forging Their Own Paths Women Saints Their Influence and Their Power Sacred Sites Their Lineages and Their Uses and Different Migratory Paths. Each section will enrich readers knowledge of the experiences of pilgrim women. The book will be of interest to scholars of pilgrimage studies in general as well as those interested in women travel tourism and the variety of religious experiences.

Spanish Dramatists of the Golden Age Mary Parker, 1998-09-17. The Golden Age of Spanish drama extends from the close of the 15th century to the death of Calderón in 1681. During that time the humanists as dramatists followed Italy's artistic awakening direction and imitated Classical drama. With originality and dreams of greatness they subverted the nature of tragedy modified the approach of Comedy and invented the New Play the Comedia Nueva. In it the poet dramatists introduced important modifications of realism included imagined reality Christian symbolism and

theatricality as artistic truth They elaborate all kinds of syntheses For this reason the Spanish Golden Age theater can be viewed as part of a tradition that includes the Greco Roman comedy and tragedy Christian tragedy and the authentic national literary and dramatic tendencies The entries in this reference book explore the fascinating history of the Golden Age of Spanish drama The volume begins with an introductory overview of the literary cultural and historical contexts that shaped dramatic writing of the period The book then presents alphabetically arranged essays for nineteen significant Spanish dramatists of the Golden Age Each essay is written by an expert contributor and includes biographical information an analysis and evaluation of major works a discussion of critical response to the plays and an extensive bibliography of primary and secondary sources The volume closes with a selected general bibliography of central critical studies of Golden Age Spanish drama
