Star Wars Galaxies Warren Guide:

The Video Games Guide Matt Fox, 2013-01-17 The Video Games Guide is the world's most comprehensive reference book on computer and video games. Presented in an A to Z format, this greatly expanded new edition spans fifty years of game design from the very earliest 1962's Spacewar through the present day releases on the PlayStation 3, Xbox 360, Wii, and PC. Each game entry includes the year of release, the hardware it was released on, the name of the developer/publisher, a one to five star quality rating, and a descriptive review which offers fascinating nuggets of trivia, historical notes, cross-referencing with other titles, information on each game's sequels, and of course the author's views and insights into the game. In addition to the main entries and reviews, a full color gallery provides a visual timeline of gaming through the decades, and several appendices help to place nearly 3,000 games in context. Appendices include a chronology of gaming software and hardware, a list of game designers showing their main titles, results of annual video game awards, notes on sourcing video games, and a glossary of gaming terms.

Star Wars: The New Essential Guide to Alien Species Ann Margaret Lewis, Helen Keier, 2013-04-30 Discover who's who and what's what in the Star Wars universe with this beautifully illustrated guide, now in full color for the first time. When it comes to extraterrestrial life forms, there's more to science fiction's most famous galaxy than just Jawas, Wookiees, Ewoks, and Hutts. From the skylanes of Coruscant to the worlds of the Outer Rim, an untold number of species populate those planets far, far away. And if you confuse Gungans with Gamorreans or don't know a bantha from a tauntaun, you definitely need the in-depth data that only this revised, expanded, and updated guide can deliver. This comprehensive overview includes beings from all six of the classic movies, plus the novels, cartoon series, comics, and video games. It's an even bigger cross-section of species than what you'll find in the Mos Eisley cantina. And each entry, from Acklay to Zabrak, from amphibians to vacuum breathers, features everything you need to know, including complete physical description and official designation, so you can tell your sentients from your non-sentients and your humanoids from your insectoids. Homeworld, from dry and dusty Tatooine, stormy and waterlogged Kamino, to arctic Hoth, and countless other strange and varied worlds, phonetic pronunciation. Askajian, Hnem, the Iktotchi, Ssi-ruu, and Xexto Quermian aren't as easy to say as they are to *er* spell. Notable appearance: a listing of one of the more significant appearances of each species in the teeming Star Wars storyline. Plus, this brand new edition includes a glossary of crucial descriptive terms and a completely original, full color illustration for each of more than one hundred individual species. It's a big galaxy, and someone has to organize it. Count on Star Wars: The New Essential Guide to Alien Species, and don't leave your homeworld without it. **A**
