Illustrated B M Bower B M Bower,2021-02-06 Helen May and her brother Vic have moved to the New Mexico desert after their father arranges to buy property there to save Helen May from the TB which is threatening her health He was desperate to make sure his daughter did not die the same way her mother had but in my opinion he went a little too far in his arrangements I suppose the purchase could not have happened any other way and Helen May also felt compelled to go ahead and move to the land even though she did not really want to go but still his action was a bit of a shock Anyway she meets Starr whose real name is not at all cowboy ish or Western and does not realize that he is not just some desert drifter he is actually a Secret Service man working undercover as a stock buyer while he tries to find out as much as he can about a suspected plot of treason Yes it all sounds a little far fetched and it was but the story was still entertaining B. Illustrated Handbook of Succulent Plants: Monocotyledons
 Urs Eggli, 2012-12-06 Handbooks devoted to succulent plants including cacti have a long standing tradition and the demand for updated editions is a good indication of the high degree of interest that exists in this fascinating group of plants While first handbooks devoted to the family Cactaceae were already published in the 19th century the first handbook dealing with the so called other succulents was authored by Hermann Jacobsen and published in 1954 1955 then called *Handbuch der sukkulenten Pflanzen* A revised and enlarged English edition was made available in 1959 and was repeatedly reprinted in the following years A major step towards a compact handbook including short descriptions full synonymy and hundreds of illustrations was the publication of the first edition of Hermann Jacobsen s celebrated *Sukkulentenlexikon* in 1970 followed by the English edition in 1975 and a revised German edition in 1981 finished by Klaus Hesselbarth following Hermann Jacobsen s death in August 1978 The demand for updated compact information on succulent plants has not diminished since then and contrary to Hermann Jacobsen s opinion preface to the German edition 1970 that the number of papers dealing with succulent plants was on the decline the interest in succulent plants was growing both among hobbyists and among botanists The results are numerous new taxa in many families and many monographs of previously little known groups have been published in the last 30 years Accordingly a need for a New Lexicon was beginning to be felt both for other succulents and for cacti
