**California Air Resources Board** California. Air Resources Board,1989      Understanding and Analysis: The California Air Resources Board Forest Offset Protocol Eric Marland,Grant Domke,Jason Hoyle,Gregg Marland,Laurel Bates,Alex Helms,Benjamin Jones,Tamara Kowalczyk,Tatyana B. Ruseva,Celina Szymanski,2017-03-28 This book is a product of the initial phase of a broader study evaluating the voluntary and regulatory compliance protocols that are used to account for the contributions of forests in U S based greenhouse gas GHG mitigation programs The research presented here is particularly concerned with these protocols use of the USDA Forest Service s Forest Inventory and Analysis FIA data to describe forest conditions ownership and management scenarios and is oriented towards providing regulators and other interested parties with an objective comparison of the options uncertainties and opportunities available to offset GHG emissions through forest management Chapters focus on the protocols for recognizing forest carbon offsets in the California carbon cap and trade program as described in the Compliance Offset Protocol U S Forest Projects California Air Resources Board 2011 Readers will discover the protocols used for quantifying the offset of GHG emissions through forest related project activity As such its scope includes a review of the current methods used in voluntary and compliance forest protocols an evaluation of the metrics used to assign baselines and determine additionality in the forest offset protocols an examination of key quantitative and qualitative components and assumptions and a discussion of opportunities for modifying forest offset protocols in light of the rapidly changing GHG related policy and regulatory environment Finally the report also discusses accounting and policy issues that create potential barriers to participation in the California cap and trade program and overall programmatic additionality in addressing the needs of a mitigation strategy      *California Air Quality* California. Air Resources Board,1991

*Castle Air Force Base (AFB), Disposal and Reuse* ,1994      State and Federal Standards for Mobile-Source Emissions National Research Council,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Committee on State Practices in Setting Mobile Source Emissions Standards,2006-06-15 Emissions from mobile sources contribute significantly to air pollution in the United States Such sources include cars and light and heavy duty trucks diesel powered cranes bulldozers and tractors and equipment such as lawnmowers that run on small gasoline engines The role of state versus federal government in establishing mobile source emissions standards is an important environmental management issue With this in mind Congress called on EPA to arrange an independent study of the practices and procedures by which California develops separate emissions standards from the federal government and other states choose to adopt the California standards The report provides an assessment of the scientific and technical procedures used by states to develop or adopt different emissions standards and a comparison of those policies and practices with those used by EPA It also considers the impacts of state emissions standards on various factors including compliance costs and emissions The report concludes that despite the substantial progress in reducing emissions from mobile sources nationwide more needs to be done

to attain federal air quality standards in many parts of the country Additionally California should continue its pioneering role in setting emissions standards for cars trucks and off road equipment Air Pollution in California, Annual Report California.
