State Of Alliance Collapse Series 5:

Professional Journal of the United States Army ,2016 **Arguing about Alliances** Paul Poast,2019-11-15 Why do some attempts to conclude alliance treaties end in failure From the inability of European powers to form an alliance that would stop Hitler in the 1930s to the present inability of Ukraine to join NATO states frequently attempt but fail to form alliance treaties In *Arguing about Alliances* Paul Poast sheds new light on the purpose of alliance treaties by recognizing that such treaties come from negotiations and that negotiations can end in failure In a book that bridges Stephen Walt s *Origins of Alliance* and Glenn Snyder s *Alliance Politics* two classic works on alliances Poast identifies two conditions that result in non agreement major incompatibilities in the internal war plans of the participants and attractive alternatives to a negotiated agreement for various parties to the negotiations As a result *Arguing about Alliances* focuses on a group of states largely ignored by scholars states that have attempted to form alliance treaties but failed Poast suggests that to explain the outcomes of negotiations specifically how they can end without agreement we must pay particular attention to the wartime planning and coordinating functions of alliance treaties Through his exploration of the outcomes of negotiations from European alliance negotiations between 1815 and 1945 Poast offers a typology of alliance treaty negotiations and establishes what conditions are most likely to stymie the attempt to formalize recognition of common national interests **Public Opinion** ,1892 **The End of Roe** Jeanine E. Kraybill,2025-09-17 *The End of Roe* assesses abortion and the American legal and political system in the aftermath of the United States Supreme Court s June 2022 decision in *Dobbs v Jackson Women s Health Organization* In *Dobbs* the US Supreme Court held that a woman did not have a constitutional right to terminate her pregnancy This decision further polarized an already divided nation by overturning nearly fifty years of precedent under *Roe v Wade* following on from two highly contentious presidential elections Now as Christian conservative legal organizations seek to tighten access to abortion through attempts to limit chemical abortion the most widely used method to terminate pregnancies in the United States as well as cut off other avenues to the procedure access to abortion seems uncertain and increasingly complicated across the United States This book discusses how widely differing abortion laws have evolved across the United States as well as how religious groups and conservatives have turned to the legal process in their fight to restrict abortion further and how more progressive states have countered with the passage and implementation of safe harbor laws shielding physicians who perform abortions and the women who wish to procure them mainly when their home state is hostile to their medical situation or choice This book demonstrates how abortion will continue to shape future elections and the consequences of these political contests on this issue This book will appeal to students and scholars of American politics ethics politics and religion and women and politics as well as practitioners in the areas of law political science sociology and philosophy and anyone interested in the abortion debate in the United States **Beyond Open Skies** Brian F. Havel,2009-01-01 *Beyond Open Skies* offers a systematic comparative analysis of the legal and policy dimensions of

airline deregulation by federal fiat in the United States and by supranational collaboration in the European Union The book draws upon a variety of sources including very recent developments in U S and EC international aviation law policy and diplomacy to propose a genuine multilateral air transport system It examines the potential of the open skies initiative in the aftermath of the new U S EC air transport agreement to inspire a genuine globalization of the world s air transport industry in such crucial aspects as the following cabotage ownership and citizenship requirements route selection airline identity capacity pricing regimes competition and public aid regulatory harmonization labor laws provisions for charter and or cargo transportation fair operation of and access to computer reservations systems authorization of code sharing arrangements alliances and antitrust immunity and dispute resolution
