War Africa Report 2007:

War and Conflict in Africa Paul D. Williams, 2013-04-26 After the Cold War Africa earned the dubious distinction of being the world's most bloody continent. But how can we explain this proliferation of armed conflicts? What caused them and what were their main characteristics? And what did the world's governments do to stop them? In this fully revised and updated second edition of his popular text Paul Williams offers an in-depth and wide-ranging assessment of more than six hundred armed conflicts which took place in Africa from 1990 to the present day, from the continental catastrophe in the Great Lakes region to the sprawling conflicts across the Sahel and the web of wars in the Horn of Africa. Taking a broad comparative approach to examine the political contexts in which these wars occurred, he explores the major patterns of organized violence, the key ingredients that provoked them, and the major international responses undertaken to deliver lasting peace. Part I: Contexts provides an overview of the most important attempts to measure the number, scale, and location of Africa's armed conflicts and provides a conceptual and political sketch of the terrain of struggle upon which these wars were waged. Part II: Ingredients analyses the role of five widely debated features of Africa's wars: the dynamics of neopatrimonial systems of governance, the construction and manipulation of ethnic identities, questions of sovereignty and self-determination, as well as the impact of natural resources and religion. Part III: Responses discusses four major international reactions to Africa's wars: attempts to build a new institutional architecture to help promote peace and security on the continent; this architecture's two main policy instruments, peacemaking initiatives and peace operations; and efforts to develop the continent. *War and Conflict in Africa* will be essential reading for all students of international peace and security studies, as well as Africa's international relations. *Military Review*, 2008 [British Military Intervention Into Sierra Leone: A Case Study](#) Major Walter G. Roberson, 2014-08-15 This paper is a case study of the British military intervention into Sierra Leone in 2000. The successful British intervention led to the defeat of the Revolutionary United Front (RUF), final peace accords, and brought order to a failed state. The paper will explore the following points: what was the British foreign policy and what impact did it have in the decision to intervene? what was the British counterinsurgency (COIN) doctrine and was it useful for the forces in Sierra Leone? did the British forces use their own doctrine or was the situation in Sierra Leone unique? why was the intervention successful and what lessons can be drawn? Beyond the scope of this paper is a comparison of United Kingdom (UK) COIN doctrine and current United States (US) COIN doctrine. The focus will be to analyze the UK's actions against their doctrine, not the doctrine of the US. There is one major assumption for this case study: The paper categorizes the intervention into Sierra Leone as successful. The justification for the assumption is current-day Sierra Leone. Instead of a war-torn failed state, Sierra Leone has lasting peace, completed disarmament of insurgent forces, ended the large-scale human rights abuse, and democratic elections, not coups, determining the leadership of the country. **African Development Report 2007** African Development Bank, Oxford University Press, 2007-11-01 The African Development Report 2007 is the nineteenth annual survey of economic

Region-Building in

Southern Africa Chris Saunders, Gwinyayi Albert Dzinesa, Dawn Nagar, 2013-07-04 How successful have Southern African states been in dealing with the major issues that have faced the region in recent years What could be done to produce more cohesive and effective region building in Southern Africa In this original and wide ranging volume which draws on an interdisciplinary team of mainly African and African based specialists the key political socio economic and security challenges facing Southern Africa today are addressed These include the various issues confronting the Southern African Development Community SADC and its institutions such as HIV AIDS migration and xenophobia land grabbing and climate change and the role of the main external actors involved with the region including the United Nations the European Union the United States and China The book also looks at the Southern African Customs Union and Southern African Development Finance Institutions including the Development Bank of Southern Africa and Industrial Development Corporation and issues of gender and peacebuilding In doing so the book goes to the heart of analyzing the effectiveness of SADC and other regional organisation suggesting how region building in Southern Africa may be compared with similar attempts elsewhere in Africa and other parts of the world

Peace and Conflict in Africa David Francis, 2013-04-04 Nowhere in the world is the demand for peace more prominent and challenging than in Africa From state collapse and anarchy in Somalia to protracted wars and rampant corruption in the Congo from bloody civil wars and extreme poverty in Sierra Leone to humanitarian crisis and authoritarianism in Sudan the continent is the focus of growing political and media attention This book presents the first comprehensive overview of conflict and peace across the continent Bringing together a range of leading academics from Africa and beyond Peace and Conflict in Africa is an ideal introduction to key themes of conflict resolution peacebuilding

security and development The book's stress on the importance of indigenous Africa approaches to creating peace makes it an innovative and exciting intervention in the field

Security in Post-Conflict Africa Bruce Baker, 2009-08-05 Policing is undergoing rapid change in Africa as a result of democratization the commercialization of security conflicts that disrupt policing services and peace negotiations among former adversaries These factors combined with the inability of Africa's state police to provide adequate protection have resulted in the continuing popularity of violence

Local and Global Dynamics of Peacebuilding Christine Cubitt, 2012-03-12 Local and Global Dynamics of Peacebuilding examines the complex contributing factors which led to war and state collapse in Sierra Leone and the international peacebuilding and statebuilding operations which followed the cessation of the violence This book presents nuanced and contextually specific knowledge of Sierra Leone's political and war histories and the outcomes of the implementation of programmes of post conflict reforms It embodies an analysis of the complex challenges involved in aligning international norms and values to local expectations and local priorities and examines the role of local and global actors and structures in attempts to build a strong state and lasting peace Using a theoretical framework informed by liberal peace philosophy as well as detailed and nuanced empirical evidence from the field the book constructs a critical analysis of the contemporary global paradigm for building longer term peace in war torn fractured and fragile societies This book will be of much interest to students of peacebuilding war and conflict studies development studies African politics and IR security studies

International Arbitration in the Energy Sector Maxi Scherer, 2018-02-22 Disputes in the energy and natural resources sector are at the heart of international arbitration With more arbitrations arising in the international energy sector than in any other sector it is not surprising that the highest valued awards in the history of arbitration come from energy related arbitrations Energy disputes often involve complex and controversial issues relating to security sovereignty and public welfare International Arbitration in the Energy Sector puts international energy disputes into a global context providing broad coverage of different forms and systems of dispute resolution across both renewable and non renewable sectors With contributions from leading arbitrators academics and industry experts from across the globe the twenty chapters in the book enable readers to compare the approaches to and learnings from energy arbitrations across various legal systems and geographic regions After outlining the international energy arbitration legal framework in Part I the text delves into a detailed analysis of the problems which regularly arise in practice These include among other things commercial disputes in Part II e.g. over the upstream oil sector and long term gas supply contracts investor state disputes in Part III e.g. under the Energy Charter Treaty and public international law disputes in Part IV e.g. concerning international boundaries and the distribution of natural resources Alongside recent developments in the international energy sector attention is given to climate and sustainable development disputes which raise important questions about enforcing sustainability objectives on individuals corporations and states Backed by analyses of arbitral awards national court and international tribunal decisions treaties and other international legal instruments as well as

current events and news in the energy industry this text offers a unique contribution to international energy literature and provides insightful commentary on the prevalent issues in the field It is essential reading for any practitioner or researcher in the energy and natural resources sector *Nigeria* John Campbell,2013-06-06 Nigeria the United States most important strategic partner in West Africa is in grave trouble While Nigerians often claim they are masters of dancing on the brink without falling off the disastrous administration of President Goodluck Jonathan the radical Islamic insurrection Boko Haram and escalating violence in the delta and the north may finally provide the impetus that pushes it into the abyss of state failure In this thoroughly updated edition John Campbell explores Nigeria s post colonial history and presents a nuanced explanation of the events and conditions that have carried this complex dynamic and very troubled giant to the edge Central to his analysis are the oil wealth endemic corruption and elite competition that have undermined Nigeria s nascent democratic institutions and alienated an increasingly impoverished population However state failure is not inevitable nor is it in the interest of the United States Campbell provides concrete new policy options that would not only allow the United States to help Nigeria avoid state failure but also to play a positive role in Nigeria s political social and economic development
