Postwar Europe and the Early Cold War

Objectives

Describe the war, its aftermath

1. explain the Cold War and its effects around the world;
2. describe how international peacekeeping organizations established support points and secondary fronts, after the war;
3. evaluate American Cold War foreign policies, especially its strategies;
4. explain how ideological motives shaped the Cold War.

The Cold War

The war's aftermath is the difference between a world of peace and a world of warfare.

The United States forces that defeated the Axis powers, and the war was over. But the situation for peace was unclear. At the time, a Conference on International Organization, organized

for the establishment of power in postwar Europe, which was led by President Harry Truman.

After the war, the ideological and political differences between the two superpowers were more visible than ever before.

The Soviet Union was a communist nation whose ideological goals were opposite to those of the United States.

The United States, in contrast, was a capitalist country with a free market and a strong democratic system.

It was believed that the world was in a state of danger.
